Addendum C, three copies of which are filed herewith, contains copies of the above tariff sheets formatted with the coding required by WAC 480-80-370.

Addendum D, three copies of which are filed herewith, contains copies of the above tariff sheets in legislative format, as required by WAC 480-09-330(1)(c).

The purpose of this filing is to increase rates to recover increased electric and gas revenue requirements of \$228.3 million and \$85.9 million respectively, on an annual basis, or 16.5% and 14.5%. The impact of the filing is described in greater detail in the Summary Document, three copies of which are filed herewith as **Addendum E**. Addendum E also contains a copy of the cover letter required by WAC 480-09-330(3). We have also provided copies of the Summary Document and cover letter to the persons listed on the Certificate of Service attached to this letter.

The Company requests that the Commission approve the proposed electric and natural gas tariff changes included in this filing to be effective December 27, 2001.

Please note that Sheets 40-B and 40-D of gas tariff WN U-2, which are part of PSE's requested Purchased Gas Adjustment Mechanism, would make future adjustments to Schedules 101 and 106 effective after three days notice on the first day of the month following the month in which they are filed with the Commission. Pursuant to WAC 480-90-003 and WAC 480-90-008, the Company requests that the Commission grant an exemption from the timing of the notice provisions of WAC 480-90-193 and specifically approve the variation from the notice rules as part of its order addressing PSE's general rate case filing. Such exemption is sought in order to effect the purposes of the Purchased Gas Adjustment Mechanism, as described in the testimony filed herewith, by ensuring that the scheduled rate is adjusted on a timely basis as market prices change.

Similarly, Sheet 123-a of electric tariff WN U-60, Tariff G, provides for future monthly adjustment to the rates in the schedule effective after three days notice on the first day of the month following the month in which they are filed with the Commission. To the degree the Commission interprets its rules to require such exemption and approval with respect to electric tariffs, the Company requests that the

Commission grant an exemption from the timing of relevant notice provisions and specifically approve the variation from the notice rules as part of its order addressing PSE's general rate case filing. Such exemption is sought in order to effect the purposes of the power cost adjustment mechanism, as described in the testimony filed herewith, by ensuring that the scheduled rate is adjusted on a timely basis as market prices change.

Also being provided with this filing are twenty copies of the Company's prefiled direct testimony and exhibits supporting this rate filing. These materials will be offered into the record at the appropriate time and should not be considered evidence until so entered.

We also provide three copies of supporting work papers and one copy of the Company's most recent annual report to shareholders; subsequent quarterly reports to shareholders; the most recent FERC Forms 1, 2 and 2A; and for the most recent two years, the Company's Forms 10K and 10Q, and prospectuses for issuances of securities.

Pursuant to WAC 480-09-330(6), please be advised that in addition to the cost studies relied upon in the Company's testimony and exhibits, the Company conducted an unbundled gas and electric cost study in 1998 that was filed with the Commission in Docket No. UE-980018 on September 30, 1998.

We have also enclosed computer disks and CD ROMs with electronic copies of these materials, where available.

The Company requests that the portions of the documents listed on the Confidential Table of Contents, which is attached to the outside of the envelope that contains the "**CONFIDENTIAL INFORMATION**," as well as the confidential versions of the disks and CD ROMs containing confidential materials, be treated as confidential under the provisions of WAC 480-09-015 as they each contain sensitive commercial information. As required by WAC 480-09-015(4), the Company identifies itself, its customers, its shareholders and its consultants as the entities that might be directly affected by disclosure of the confidential information. In accordance with WAC 480-09-015, the documents noted above are marked confidential and sealed in a separate envelope marked as confidential, and the computer disks and CD ROMs containing confidential materials have also been appropriately identified.

Notice of the proposed tariff changes, as required by law and the Commission's rules and regulations, is being given to the public immediately prior to or coincident with the date of this transmittal letter. **Addendum F**, three copies of which are filed

herewith, contains a copy of the electric and natural gas "Notice of Tariff Change" which will be posted in all Company offices coincident with the date of this filing.

Thank you for your assistance in this matter.

Very truly yours,
