Dear Tina,

Thanks again for helping correct this problem. What we are looking at is getting our name ready for a change, it's in the process as you can see by this letterhead.

Our new address is 601 West 5th Ave.
 Ellensburg, Wa. 98926
 (509) 925-1448
 (509) 925-1204 FAX
landerson@hopesource.us

Our Federal I.D. number is, #91 081 4544.

Our request is that sentence 2 of the Certificate of Motor Propelled Vehicles be either deleted or amended as such. "To provide passenger and express service under RCW 81.68."

Whatever will be the most appropriate to allow us to continue our service uninterrupted will suffice.

The reason for this is that Patty Alvord of the Washington State Dept. of Transportation has said that the original way the sentence was worded limits our ability to travel beyond the specified roads. That description of our service area probably was sufficient in 1980 but is obsolete in 2005. For technical reasons, DOT will not be able to approve our grant requests for 2005 to 2007 if this language is not cleared up.

If you need more from me, please feel free to call, fax, email.

Thank you so much

Larry S. Anderson
 Director of Transportation
