Kim

Qwest agrees that the dispute resolution process has been followed up through the Director level and is willing to waive any further levels of escalation that are inherent in the ICA, as further escalation to the VP level will not likely change either Parties position on VNXX.

Thanks

Dan

Dan

Following up on my voicemails, please confirm that ELI and Qwest have exhausted the Dispute Resolution process specified under the interconnection agreement as it relates to Qwest's dispute of reciprocal compensation charges associated with numbers it believes are VNXX.

Thanks

Kim
