Subject: Waste Management of Greater Wenatchee, a division of Waste Management of Washington, Inc. (G-237); Tariff No. 12

Enclosed herein, you will find our new Tariff No.12 for the above-referenced company. This tariff replaces Waste Management of Greater Wenatchee Tariff No.11 and Waste Management of Ellensburg Tariff No. 6. In this new tariff, we are requesting adjustments to our rates attributed to increased disposal, maintenance, labor, fuel and other operating and administrative costs since our last general rate increase. A general rate increase was last received by Tariff No. 11 and Tariff No. 6 over five and eleven years ago, respectively. By combining the two tariffs into one tariff at common rates the percentage change in customers' rates will vary. This new combined tariff, if approved by the commission, would increase Company revenue by approximately \$748,000 and collectively, residential and commercial rates by 15.4%. This new tariff is being filed with a proposed effective date of May 1, 2007.

Enclosed for your review is an electronic copy of our accounting workpapers and sample customer notices. These notices will be mailed to our customers on or before April 1st.

We are also requesting that all financial data submitted with this filing which is stamped "**Confidential**" be treated as such per WAC 480-09-015 as its release may adversely affect non-regulated Waste Management operations and entities.

If you have any questions or need additional information, please contact me at (425) 814-7840.

Respectfully,

Michael A. Weinstein
Senior Pricing Manager, Pacific Northwest Market Area
