VIA E-FILING

David Danner, Executive Director and Secretary
Washington Utilities and Transportation Commission
1300 S. Evergreen Park Drive SW
Olympia, WA 98504-7250

Re: Roche Harbor Water System, Inc. – Docket UW-100954

Dear Mr. Danner:

After consultation with Commission Staff, it is believed that the Company should file a request in the above-referenced docket for an exemption from WAC 480-07-505 and WAC 480-07-530. The above-referenced filing makes an adjustment to the treatment surcharge to reflect significant increases in activated carbon, which is the active element in the treatment mechanism.

It is not intended that this filing be a general rate proceeding. Therefore, to be clear under the Commission's rules, exemptions from WAC 480-07-505 and WAC 480-07-530 are hereby requested. Thank you for your consideration of this request.

Sincerely,

RICHARD A. FINNIGAN
