RE: Fiorito Enterprises, Inc. & Rabanco Companies (dba Kent-Meridian Disposal, Allied Waste of Kent) Revenue Sharing Arrangement; Docket No. TG-111121; Request for Extension of Time for Expiration of Current Deferred Commodity Credit Rates

Dear Mr. Danner,

On June 17th, 2011, Kent-Meridian Disposal filed revised tariff pages reflecting a change to commodity credits for residential customers with an effective date of August 1, 2011. However, in order to ensure adequate time to develop and certify a comprehensive revenue sharing plan in conjunction with King County we would respectfully request that the current filing, TG-111121, be withdrawn.

Again, while we work to finalize the new revenue share agreement we would ask that our request for a continuation of our current deferred commodity credit rates, approved on docket TG-101075, beyond the current July 31, 2011 expiration to a new expiration date of September 30, 2011, or a later date if necessary, be granted.

Forty-five days prior to that date we hope to submit a revenue sharing plan certified by King County as well as revised tariff pages and work papers. At the end of the extended plan period a full accounting of revenue retained, expenditures and the impact on recycling of plan activities will be provided to the Commission and County.

Included with this petition for withdraw and request for extension are revised objectives for the two month period. King County will file a letter certifying their approval of the revised expiration date and objectives under docket number TG-111121. Revised tariff pages are included reflecting the revised expiration date of current commodity credit rates for single-family and multi-family customers.

Sincerely,

Alex Brenner
