Century Link Business

To Whom It May Concern:

[REDACTED], is requesting additional DIDs to support growth on campus. Our need is for a block of 1000 DIDs to be used for E911 purposes and will be assigned to the PSALI database.

We would like the numbers to begin with [REDACTED] so it fits with our internal dialing plan. We would appreciate receiving these numbers by September 15th because our current block already assigned to PSALI has only a few numbers still available.

Thank you,

Larry Hoffman, Director
Information Technology
Operations and Enterprise Services
WSU Spokane
