Dear Mr. King

In reference to Docket Number TS-120418. Pursuit to my existing schedule and Tariff.

On April 2012, I was granted a discontinuance on certificate No. BC 95 for one year while I was looking for a new vessel. My question is does this mean that I have to start service on May 1st 2013 or can I start service as I always have on the 3rd Saturday in May being the 18th ending on the 2nd of September being a Tuesday, Labor Day. This is what has always been on file, I am wondering if things have changed.

Very Truly Yours:

Terry Buzzard
