

Fifth Revision of Sheet No. 80-T
Canceling Fourth Revision
of Sheet No. 80-t

WN U-60

**PUGET SOUND ENERGY, INC.
Electric Tariff G**

**SCHEDULE 80
GENERAL RULES AND PROVISIONS (Continued)**

The Company shall test for excessive voltage fluctuations at its own expense where there is reasonable indication of a need therefor, but requests for voltage checks by the Customer shall be subject to payment for the cost thereof if they are more frequent than once in any twelve-month period, unless excessive voltage fluctuation is found to exist.

20. METERING:

- a. The Company shall furnish, own, and maintain all meters, instrument transformers, phase shifting transformers, test switches, and connecting circuitry necessary for measuring electricity used by the Customer. The Company shall make no charge for furnishing and installing meters. The Company, in its sole judgment, shall determine the type of meters and other equipment to be installed. (N)
(N)

The Company, at its option, may meter delivery to Customers at Primary or Secondary voltage, or at points other than the Point of Delivery and apply an adjustment factor to compensate for losses if appropriate. (C)
(C)

An accurate record shall be kept by the Company of all meter readings and such record shall be the basis for determination of all bills rendered for service. Should any meter fail to register correctly the amount of electricity used by the Customer, the amount of such use will be estimated by the Company from the best available information.

The Company, at its expense, shall initiate a test of the accuracy of a meter within ten (10) working days after receipt of the request from the Customer, provided the Customer does not make a request for a test more frequently than once in any twelve-month period. If, at the Customer's request, the meter is tested more frequently than once in twelve months and the results of the test show the meter to be either slow or registering within the allowable limits as reported by the Company, then the Customer shall pay a \$121.00 charge for the meter test. If the meter is found to be fast beyond the allowable limit, the Company shall assume the cost of the test.
