RE: Final Review – Comprehensive Clark County Solid Waste Management Plan

Dear Mr. DuBois:

The Washington State Department of Ecology (Ecology) is pleased to approve the 2015 Comprehensive Clark County Solid Waste Management Plan (plan). Ecology received an electronic copy of the plan on August 28, 2015, along with your request for final review. I appreciate the work this plan represents including the efforts of the solid waste staff, the Solid Waste Advisory Commission, community businesses, solid waste industries, government officials, and the public.

I look forward to Clark County's successful plan implementation and reaching your solid waste management goals. Solid waste planning serves as an important tool for public input, financing, grant eligibility, and implementation. Clark County should continue to review the plan and revise it as necessary to reflect the current county solid waste system.

Please send Ecology two copies of your final plan and I will forward one to the Washington Utilities and Transportation Commission. Contact Julie Robertson at (360) 407-6471 or julie.robertson@ccy.wa.gov for any questions or assistance.

Sincerely,

A handwritten signature in black ink, appearing to read "Peter Y. Lyon".

Peter Y. Lyon
