### DEMONSTRATION OF RISK OF RATE INSTABILITY OR SERVICE INTERRUPTION OR CESSATION

The operating environment in which the Company finds itself is one of great financial uncertainty. In large part, this financial uncertainty stems from the Transformation Order issued by the Federal Communications Commission.<sup>1</sup> The Transformation Order has built in an automatic decline in the Company's intrastate and interstate access revenues. The intercarrier compensation portion of the Transformation Order introduces a concept of a base line year for calculating revenues and provides support from the Connect America Fund ("CAF") based on the base line year. However, the base line year revenues (i.e. CAF support) are reduced by five percent each year. The Company had been exploring ways of addressing access bypass to increase access revenues. However, any increase in access revenues under the Transformation Order would simply be a reduction in CAF support and no new net revenues would be produced. The CAF support reduction began July 2012. Projecting through the calendar year 2016, including additional reductions that will occur July 1, 2016, the Company has seen a reduction in support from the base line revenue amount of approximately \$ 64,690.

In addition, by order of this Commission, the traditional universal service access rate element and related pooling fund have been terminated effective July 1, 2014. Using 2012 as a base line, which is the latest year with final pool numbers, the Company is facing a loss of traditional universal service fund revenues of approximately \$9,122 per year.

Furthermore, during the fiscal-year period ended December 31, 2014, the Company has seen its Federal high cost loop support undergo a significant reduction – declining from \$196,476 in 2012, to \$133,083 in 2013 to \$81,386. The loss of Federal high cost loop support has occurred primarily because of the FCC's Part 54.302 *Rules* transition to a monthly support cap of \$250 per line that concluded on July 1, 2014. Similarly, WeavTel also experienced significant reductions in Interstate Common Line Support (ICLS) during 2013 and 2014 because of the FCC's Part 54.302 *Rules*.

These factors have led to the risky financial condition of the Company, as reflected in the financial reports that are part of the Petition.

---

<sup>1</sup> *In the Matter of Connect America Fund, A National Broadband Plan for Our Future, Establishing Just and Reasonable Rates for Local Exchange Carriers, High-Cost Universal Service Support, Developing an Unified Intercarrier Compensation Regime, Federal-State Joint Board on Universal Service, Lifeline and Link-Up, Universal Service Reform - Mobility Fun*, WC Docket No. 10-90, GN Docket No. 09-51, WC Docket No. 07-135, WC Docket No. 05-337, CC Docket No. 01-92, CC Docket No. 96-45, WC Docket No. 03-109, WT Docket No. 10-208, Report and Order and Further Notice of Proposed Rulemaking, FCC 11-161 (rel. Nov. 18, 2011)(*USF/ICC Transformation Order*).

The combination of factors noted above creates a situation in which, without support from the state universal service communications program, the Company may be faced with a choice of increasing rates further, which may drive more customers away, or cutting service in order to be able to match expenses to revenues. Neither choice presents a viable path for providing good service to customers. The dilemma presented by these choices reflects the risk of rate instability or service interruption or cessation to which the Company is subject.
