COMMISSION

In Docket TR-170046, the Commission approved construction of a new at-grade railroad crossing by Order 01, effective February 9, 2017. The Order, in §17(1)(d) states:

Upon completion of the authorized construction, Columbia River Carbonates must notify the Commission within 30 days. Acceptance of the changes is subject to inspection by Commission Staff, verifying that the crossing is in full compliance with applicable laws, regulations, and the conditions set forth in this Order.

Columbia River Carbonates did not inform the Commission of completion of the project. However, a review of Commission records shows that Rail Safety staff inspected the crossing on March 10, 2020. Records and photographs confirm construction of the crossing is complete and in compliance with Order 01 in TR-170046.

This matter is now closed.
