UTILITIES,

Petitioner,

For an Order Establishing Compliance with  
the Provisions of RCW 80.08.040 with  
Respect to its Proposal to Issue and Sell up to  
\$500 Million in Debt Securities

DOCKET U-171210

ORDER 01

ESTABLISHING COMPLIANCE  
WITH RCW 80.08.040,  
SECURITIES

**BACKGROUND**

- 1 On December 26, 2017, Avista Corporation d/b/a Avista Utilities (Avista or Company) filed with the Washington Utilities and Transportation Commission (Commission) a statement of a planned securities issuance and application for an order affirming compliance with RCW 80.08.040 (Application). In its Application, Avista proposes to issue and sell up to \$500 million in Debt Securities through either public offerings or private placement. The Application was filed pursuant to RCW 80.08.040.
- 2 Avista filed with its Application: (1) a certification by an authorized officer that the proceeds will be used for one or more purposes allowed by RCW 80.08.030; (2) a description of the proposed issuance, including the terms of financing; and (3) a statement as to why the proposed sale of securities is in the public interest. The Company contends that the issuance is in the public interest because the proceeds will be used to finance the cost of acquiring, constructing, improving, and maintaining its facilities.
- 3 Commission staff (Staff) reviewed the Company's Application and determined that it meets the requirements set out in RCW 80.08.040. Accordingly, Staff recommends the Commission grant the Company's Application and issue an order finding that the Company has complied with RCW 80.08.040.

## DISCUSSION

- 4 We grant Avista's Application for an order finding that its planned securities issuance complies with RCW 80.08.040. The statute requires that a regulated utility, prior to issuing a security, must file with the Commission:
- (1) A description of the purposes for which the issuance is made, including a certification by an officer authorized to do so, that the proceeds from any such financing is for one or more of the purposes allowed by RCW 80.08.030;<sup>1</sup>
  - (2) A description of the proposed issuance, including the terms of financing; and
  - (3) A statement as to why the transaction is in the public interest.
- 5 RCW 80.08.040 further provides that any utility that makes such a filing may request the Commission to enter a written order establishing that the utility has complied with the requirements set out above. The statute requires the Commission to enter such an order when the utility has provided all information and statements as required.
- 6 We find that Avista has satisfied the statutory requirements. The Company's planned securities issuance includes a description of the purposes for which the issuance is made, including a certification by an authorized officer that the proceeds will be used for one or more purposes allowed by RCW 80.08.030; a description of the proposed issuance, including the terms of financing; and a statement as to why the proposed sale of securities is in the public interest. Accordingly, we grant the Company's Application.
- 7 Within five months from the end of Avista's reporting period, the Company must file with the Commission an annual securities transaction report that complies with the minimum reporting requirements set out in Washington Administrative Code (WAC) 480-90-262 and WAC 480-100-262.
