Re: Hold on Asotin County SWMP Review – *Asotin County Solid Waste and Moderate Risk Waste Management Plan 2017 Update*

To whom it may concern:

The Department of Ecology (Ecology) received Asotin County's request to hold the Plan update review via email on January 22, 2018 to allow them to address the date range change from 2019-2024 throughout the Solid Waste and Moderate Risk Waste Management Plan and the Washington Utilities and Transportation Commission (UTC) checklist.

Upon receiving a new preliminary draft, Ecology will again forward the draft Plan to the UTC to continue your RCW required review at that time. Because this revision is minor and to encourage moving forward with this process, I do not feel that the review periods should start over, rather just subtract the 14 days that have already passed since the initial submittal on January 8, 2018. This review period will start again once the new preliminary draft is received. Again, please put a hold on your current review.

Please feel free to contact me with any questions or concerns at (509) 329-3545.

Sincerely,

Meagan Gilmore  
Environmental Planner  
Waste 2 Resources Program

cc: Stephen Becker, Asotin County Solid Waste Supervisor  
Wayne Krafft, Waste 2 Resources Section Manager
