Memorandum

March 3, 2022

To: File

From: Vicki Elliott, Policy Specialist

Subject: Docket TR-180617, Petition by Clark County to modify a railroad crossing on NE 119th Street, Clark County, USDOT 852436D

In Docket TR-180617, the Commission approved a number of modifications to the railroad crossing at USDOT 852436D by Order 01, effective July 25, 2018. This included:

- Install lights and gates
- Extend crossing surface for widened roadway
- Install median island barriers on each approach
- Relocate bungalow and retrofit to include connection to county system
- Install pedestrian walkways and flashers
- Update or replace signs and pavement markings

The Order, in §12(3) states:

Upon completion of the modifications authorized herein, Clark County must notify the Commission within 60 days. Acceptance of the changes is subject to inspection by Commission Staff, verifying that the crossing is in full compliance with applicable laws, regulations, and the conditions specified herein.

Clark County did not notify the Commission of completion of the project. However, a review of Commission records shows that Rail Safety staff inspected the crossing on September 9, 2019. Records and photographs show modifications to the crossing are complete and in compliance with Order 01 in TR-180617.

This matter is now closed.
