Subject: PS/ALI Issue

Rebecca,

Good afternoon. With respect to the issue of CenturyLink no longer providing PS/ALI service, we do not believe that 30 days is enough time to adequately transition over 800 schools, businesses and campuses to new providers. In several conversations with different customers, some are still unaware that this is taking place and the impact it could have on them. I strongly believe that extended time will be needed to ensure proper notification and transition of services. Unless there are drastic changes, 90 to 120 days would be the minimum and even that will be quite challenging. Thank you for your oversight and persistence on this issue. I will be at the hearing on the 25th and can provide formal comment if needed. Thank you.

Respectfully,
Adam
