Re: UW-190305 Effective Date Extension Request

Dear Mr. Johnson,

Washington Water Service Company (WWSC) and Staff have been working on advice letter UW-190305. However, in reviewing the advice letter Staff brought to WWSC's attention that a subset of customers needed to be notified of the proposed charges requested in UW-190305. Specifically, those customers that would be affected by the service connection charge where lots already have a service installed. In order to ensure that customers had sufficient time to review the proposed change in compliance with WAC 480-110-425, a customer notice was drafted and mailed. The customer notice was approved by staff and mailed to customers on May 10, 2019. Therefore, WWSC requests to extend the effective date of the advice letter from June 3, 2019 to June 14, 2019 to allow sufficient time for customers to review the proposed charges. WWSC and Staff are continuing to work through the advice letter.

If there are any questions regarding the extension request, please do not hesitate to contact me.

Sincerely,

Julian Gandara  
Regulatory Program Manager
