ORIGINAL SHEET NO. 17

SCENIC SHORES WATER COMPANY

WATER SERVICE

RULES AND REGULATIONS

Rule 19 – Water Leak Procedures

When the company determines that a leak has occurred on the customer's property, the company will adjust the customer's bill after the customer submits a bill from a plumber, contractor, or other evidence that the leak has been repaired. The company will re-calculate the customer's bill for the '*relevant time period*.' The '*relevant time period*' for this adjustment will not exceed two (2) months for any given leak. The customer's bill will be adjusted by:

1. Estimating the customer's '*projected normal usage*' during the relevant period(s) and billing this amount according to the usage rate shown on Schedule 1.
2. Billing the '*excess usage*' during the relevant period using one-fifth (1/5) the usage and rate(s) shown on Schedule 1.
3. Crediting the difference between the original bill for the relevant period and the sum of the bills described in Steps 1 and 2.

'*Projected Normal usage*' – as an estimate of what the customer's water consumption would have been had there been no leak. This estimate will be based on the same period from the prior year.

'*Excess Usage*' – as the actual metered usage minus the projected normal usage.

Note: The credit described in this Rule is available to a customer only once every twenty-four calendar months.

ORIGINAL SHEET NO. 18

SCENIC SHORES WATER COMPANY

WATER SERVICE

RULES AND REGULATIONS

Rule 20 – Abandonment

If there is no usage at a customer location for twelve months or bills go unpaid for twelve months, the customer will be deemed to have abandoned service. The equivalent residential unit (ERU) associated with that customer location will then be made available for other potential customers. For service to be reestablished at a location where service was deemed abandoned, a new application is required and service is subject to available capacity.

Rule 21 – Payment Alternatives

A customer may establish a direct payment account where payments are made automatically from the customer's bank account to the company. Please contact the company to establish the payment details and date of payment. Any bank charges for insufficient funds are the responsibility of the customer.

Rule 22 – Non-Sufficient Funds (NSF) Charge

An NSF check charge of \$30.00 will be made for handling customer checks that have been returned by the bank as NSF or account closed. This charge will be applied to the next billing to the customer.

**SECOND REVISION OF SHEET NO. 24
CANCELING FIRST REVISION OF SHEET NO. 24**

SCENIC SHORES WATER COMPANY

SCHEDULE NO. 2 (Continued)

CROSS CONNECTION CONTROL (Continued)

5. If the customer has an Approved Backflow Prevention Assembly installed the assembly must be tested annually by a certified Backflow Assembly Tester (BAT) specialist. The company will maintain a list of certified BAT specialists that are acceptable to the company and the customer may choose from any such BAT specialist on the company's list. The customer will provide a copy of the acceptable annual report from the BAT specialist. If the annual report is not provided within thirty days of the anniversary date of the installation of the Approved Backflow Prevention Assembly, then the company will provide a notice of disconnection pursuant to WAC 480-110-355. If a copy of the annual report is not received by the date for disconnection as specified in the notice, the company will disconnect customer's service.

6. No less often than every three years, the company shall re-survey its customers concerning the existence of cross connections. If the customer does not respond to the initial survey, a second survey will be sent. If the customer does not respond to the second survey, then non-response options listed in Condition 2, above, will apply. (T)

7. For each customer meeting any criteria of WAC 246-290-490-4(b) Table 9, no less than every three years, the company shall conduct a site visit, premises inspection and shall assess the customer the charges set forth in Section B, above. (T)

8. When necessary, the company will provide notices of disconnection as required in WAC 480-110-335.

9. For all new construction, an Approved Backflow Prevention Assembly shall be required.

10. The Approved Backflow Prevention Assembly must be installed a (N)
minimum of two feet from the meter box. (N)
