

Purpose: At the request of a customer, Pullman Disposal Service wishes to offer cardboard only recycling collection using dumpsters in addition to recycling roll-carts currently offered. This service would be offered using 1yd, 2yd and 3yd dumpsters. This service is already offered to commercial customers (unregulated) and thus the company will not incur the cost of dispatching an additional truck to collect these dumpsters. As such, it is reasonable to base the dumpster rates for regulated customers on the volume of recycling services currently offered. The below table was used to convert dumpster sizes from cubic yards to gallons, and the current tariff rates were applied in 95 gallon increments, with a prorated "additional cart" rate being applied to the final increment below 95 gallons.

cubic yards to US gallons table

cubic yard	1	2	3	4	5	6	7	8	9
gallon	201.974	403.95	605.92	807.9	1009.87	1211.84	1413.82	1615.79	1817.76

Current Tariff Rates (95gal):

1st cart \$ 3.10
 Additional Carts \$ 0.55

1yd Dumpster
