 COMMISSION

Dear Amanda Maxwell:

Canyon Lakes Water Company, LLC is requesting an update to our initial tariff filing. These are substitute tariff sheets to replace the originals filed May 4, 2021.

We are also requesting an exemption for WAC 480-110-375 (1) (a) rule for billing periodicity for our irrigation customers. We wish to bill annually.

The company is requesting to bill annually instead of monthly. The reason I am asking for the exemption is that we are going through an update with our supplier Kennewick Irrigation District (KID) and update of capital plant. Our customers are used to paying once each year at about the same time as KID sends out notices for irrigation. If we go to 4 times a year it adds more paperwork and billing cost for both us and the customers. It will probably confuse or upset some of the customers. I wouldn't want to be billed four times a year when for the past many years it has only been once a year.

I would also like to point out that most irrigations systems in our area of the Tri-cities bill on an annual or semi-annual basis and customers are familiar with this practice. I want to thank you for your consideration of this exemption.

Sincerely

Mike Lundgren
