The Washington Utilities and Transportation Commission (Commission) believes that Mead Enterprises, Inc. d/b/a Mead Contracting Co. (Mead Contracting or Company) violated Revised Code of Washington (RCW) 19.122.055(1)(a) by failing to notify the one-number locate service and causing damage to an underground gas facility.

RCW 19.122.055(1)(a) states, in part, that excavators who fail to notify a one-number locator service and cause damage to an underground gas facility are subject to a civil penalty of not more than \$10,000 for each violation.

Commission staff (Staff) conducted an investigation that included reviewing damage reports, investigation reports, the One Call Center database, and communications with Mead Contracting. The documents reviewed identified a natural gas event that involved Mead Contracting damaging a natural gas facility while excavating without a valid locate ticket.

The Commission reviewed findings and recommendations made by Staff and hereby notifies you that it is assessing a \$1,000 penalty (Penalty Assessment) against you on the following grounds:

1. **Alleged Violation:**

On November 15, 2023, Mead Contracting was excavating at 2363 West Viewmont Way West, Seattle, Washington. While excavating, Mead Contracting workers struck and damaged an underground Puget Sound Energy (PSE) natural gas facility. The Damage Information Reporting Tool (DIRT) report submitted by PSE on December 26, 2023, indicated that Mead Contracting was excavating without a valid request to locate underground utilities. More specifically, PSE advised that the locate had expired in August of 2023 and the damage occurred in November of 2023.

2. **Analysis:**

The alleged violation concerns RCW 19.122.055(1)(a), which states, in part, that an excavator must contact the one-number locate center before beginning excavation. According to PSE's Gas First Response (GFR) report, on November 15, 2023, Mead Contracting was installing a water line on the property with a track hoe and cut through a 5/8" PSE natural gas service line. Additionally, the GFR detailed that the Company was digging with an expired locate ticket (#23251069). The report further documented that the Company had found an old steel line and thought it was gas.

Staff reviewed the One Call ticket center database and found a locate ticket (#23251069) for 2363 W Viewmont Way W, Seattle, WA. The One Call ticket confirmed that the locate was called in on June 26, 2023, and that the locate expired on August 10, 2023. Additionally, the One Call ticket center database showed that another locate was called in by Mead Contracting on November 16, 2023, for 2363 W Viewmont way W, Seattle, WA (#23460253), which was the day after the reported damage.

Staff communicated with Mead Contracting via email. The Company admitted to causing the damage, stated that they had previously called for locates on two occasions for the address, and that they understood that tickets expire. However, they believed the tickets expired after 30 days rather than 45 days. Additionally, the Company expressed concern about the depth of the gas line being only 8" below ground.

In an email from PSE on March 8, 2024, PSE confirmed that treble charges were assessed to Mead Contracting.

The Commission considered the following factors in determining the appropriate penalty amount for the violation:

1. **How serious or harmful the violation is to the public.**

This incident could have been significantly more harmful to Mead Contracting workers, utility technicians, nearby homeowners, and the public, and could have resulted in severe injury and/or loss of property.

2. **Whether the violation is intentional.**

The violation appears to be due to negligence rather than a lack of knowledge of Washington State's Dig Law. Over the past 12 months, Mead Contracting has submitted 3 requests to the One Call Center for locates. This demonstrates Mead Contracting's knowledge of requirements and its responsibility to contact the one-number locate service before beginning excavation.

3. **Whether the company self-reported the violation.**

Mead Contracting did not self-report the violation. The Commission became aware of the violation when PSE filed a DIRT report.

4. **The likelihood of recurrence.**

The likelihood of recurrence depends on Mead Contracting's actions going forward and its willingness to notify the one-number locate service every time before beginning excavation.

5. **Warning Letter**

On May 17, 2022, the Commission mailed an alleged Violation of Washington Dig Law letter to Mead Contracting. The letter included detailed information about Washington State's Underground Utility Damage Prevention Act, requirements for submitting utility locate requests before excavating, and the possibility of penalties for each violation. The Commission mailed the letter after receiving a report of damage caused by Mead Contracting on February 2, 2022, that occurred because the Company failed to submit a request to locate underground utilities before excavating.

The Commission has considered these factors and determined that it should penalize Mead Contracting as follows:

- \$1,000 penalty for one violation of RCW 19.122.055(1)(a) with an offer to suspend an \$800 portion of the penalty for one year, and then waive it, subject to the conditions that:
 - 1) Company supervisors and field crew responsible for excavation complete Dig Safe Training provided through the National Utility Contractors Association (NUCA) within 90 days of this Penalty Assessment;
 - 2) The Company must submit documentation of that attendance to the Commission; and
 - 3) The Company must not commit any further violations of RCW 19.122 within 12 months of the date of this Penalty Assessment.

These facts, if proven at a hearing and not rebutted or explained, are sufficient to support the Penalty Assessment.

Your penalty is due and payable now. If you believe the violation did not occur, you may deny committing the violation and contest the penalty through evidence presented at a hearing or in writing. Or, if there is a reason for the violation that you believe should excuse you from the penalty, you may ask for mitigation (reduction) of the penalty through evidence presented at a hearing or in writing. The Commission will grant a request for a hearing only if material issues of law or fact require consideration of evidence and resolution in a hearing. Any request to contest the violation or for mitigation of the penalty must include a written statement of the reasons supporting that request. Failure to provide such a statement will result in denial of the request. *See* RCW 81.04.405.

If you properly present your request for a hearing and the Commission grants that request, the Commission will review the evidence supporting your dispute of the violation or application for mitigation in a Brief Adjudicative Proceeding before an administrative law judge. The administrative law judge will consider the evidence and will notify you of their decision.

You must act within 15 days after receiving this Penalty Assessment to do one of the following:

- Pay the \$1,000 penalty amount due; or

- Pay \$200 and notify the Commission that you accept the offer to suspend an \$800 portion of the penalty amount subject to the following conditions:
 - Mead Contracting management and field crew responsible for excavation must complete NUCA Dig Safe Training (<https://utc-9183.quickbase.com/db/bpkt6vndh>) within 90 days of service of this Penalty Assessment; and
 - **The Company must submit documentation of that attendance to the Commission;** and
 - Mead Contracting must not incur any additional violations of RCW 19.122 within 12 months of the date of this Penalty Assessment; or
- Request a hearing to contest the occurrence of the violation; or
- Request mitigation to reduce the amount of the penalty.

Please indicate your selection on the enclosed form and submit it electronically through the Commission's web portal at <https://efiling.utc.wa.gov/Form> **within FIFTEEN (15) days** after you receive this Penalty Assessment. If you are unable to use the web portal, you may submit it via email to records@utc.wa.gov.
