**Re: UG-250711 - Schedule 210: Residual Balances of Previous Amortizations –
Replacement Pages – DO NOT REDOCKET**

Dear Mr. Killip:

On September 15, 2025, Northwest Natural Gas Company, dba NW Natural (NW Natural or Company), filed a tariff revision in the above-mentioned docket with an effective date of November 1, 2025.

The purpose of this filing is to amend the usage-per-customer data to align with the most recent General Rate Case, UG-200994, by providing a revised page 4 to Exhibit A and to revise the proposed changes in the original cover letter. Tariff Sheets 210.1 and 210.2 remain unchanged from the September 15th filing.

Proposed Changes

If there were no other adjustments to rates effective November 1, 2025, the average Schedule 2 residential customer using 56 therms would see a bill increase of \$0.02¹ per month, and the average Schedule 3 commercial customer using 236 therms would see a bill increase of \$0.05 per month. The bill impact for customers on the other residential and commercial rate schedules is shown on page 4 of the supporting materials to this filing. If the effects of the temporary rate adjustments were permanent, the rate changes would be a decrease in the Company's revenues from its Washington operations of \$48,407, or 0.04%.

The proposed rate change will affect all of NW Natural's Washington customers. NW Natural currently serves approximately 91,114 residential customers and 7,461 business and industrial customers in the Company's Washington service territory.

Please address correspondence on this matter to Michael Lewis at Michael.Lewis@nwnatural.com with copies to the following:

¹ All bill impacts assume Climate Commitment Act charges and credits for non-low income customers who joined NW Natural's system before July 25, 2021, as set out in Schedule 308 - Washington Climate Commitment Act Recovery Mechanism.
