Re: UG-250715 - Schedule 215: Adjustment to Rates for Energy Efficiency Service and Programs - Replacement Pages – DO NOT REDOCKET

Dear Mr. Killip:

On September 15, 2025, Northwest Natural Gas Company, dba NW Natural (NW Natural or Company), filed a tariff revision in the above-mentioned docket with an effective date of November 1, 2025.

The purpose of this filing is to update the usage-per-customer data to align with the most recent General Rate Case, UG-200994, by providing a revised page 2 to Exhibit A and to revise the proposed changes in the original cover letter. Tariff Sheets 215.1 and 215.2 remain unchanged from the September 15th filing.

Proposed Changes

If there were no other adjustments to rates effective November 1, 2025, the average residential Schedule 2 customer using 56 therms would see an increase of \$0.09¹ per month, and the average Schedule 3 commercial customer using 236 therms would see a bill increase of \$0.23 per month. The bill impact for customers on the other residential and commercial rate schedules is shown on page 2 of the supporting materials to this filing.

The proposed rate change will affect all of NW Natural's Washington residential and commercial class sales service customers. NW Natural currently serves approximately 91,114 residential customers and 7,378 commercial customers in the Company's Washington service territory.

¹ All bill impacts assume Climate Commitment Act charges and credits for non-low income customers who joined NW Natural's system before July 25, 2021, as set out in Schedule 308 - Washington Climate Commitment Act Recovery Mechanism.

Please address correspondence on this matter to Michael Lewis at Michael.Lewis@nwnatural.com with copies to the following:

² Per UG 200994 Order 05 under the rate mitigation provisions the Company will spread the historical Energy Efficiency Deferral tariff equally over the 2021-22 and 2022-23 PGA years. Therefore, tab '186317 was also filed in the 2021-22 PGA for the historical Energy Efficiency tariff calculation.
