

**BEFORE THE WASHINGTON  
UTILITIES AND TRANSPORTATION COMMISSION**

In the Matter of the Request of	DOCKET UT-250005
TELEPORT COMMUNICATIONS AMERICA, LLC	ORDER 01
For Assignment of Telephone Numbering Resources	ASSIGNING NUMBERING RESOURCES

**BACKGROUND**

- 1 On January 3, 2025, Teleport Communications America, LLC (TCAL or Company) filed with the Washington Utilities and Transportation Commission (Commission) a request to overturn the Number Pooling Administrator’s decision to withhold numbering resources and direct the Number Pooling Administrator to provide one 1,000 number block to TCAL to accommodate a specific government customer in the 253 NPA, Tacoma Rate Center. The request is being made to meet the requirements for a customer’s network platform and operations. All of the numbers requested will be used within six months.
- 2 Telephone companies commonly hold and manage a reasonable inventory of telephone numbers in the areas where they provide service. When more numbers are needed by a company, it may request them from the North American Numbering Administrator. The Administrator withholds telephone numbers if the company’s inventory is sufficient for the next six months and there is a shortage of numbers in the affected area code.
- 3 The North American Numbering Plan Administrator’s (NANPA’s) website reports the 253 NPA is forecasted to exhaust in 2055 based on projected demand assessment.
- 4 The Federal Communications Commission (FCC), in its Third Report and Order, FCC 01-362, CC Docket 96-911 and 99-200, has delegated authority to the Commission to direct NANPA to release numbers for extenuating circumstances that do not meet NANPA’s existing criteria. The Company provided the Commission with a detailed inventory of number resources and proof of utilization in the rate center. The Company will adhere to the requirement of reviewing number resources and comply with the requirements of the NANPA regarding the return of unused numbers.

5 The FCC issued an order establishing a “safety valve,” which allows companies that do not meet the utilization threshold in a given rate center to obtain additional numbering resources apart from the general waiver process.<sup>1</sup> Specifically, the FCC granted to state commissions the authority to direct the Number Pooling Administrator to release numbers to a company to satisfy a specific customer request that cannot be met with the company’s current inventory, provided the company documents the customer’s request and submits current proof of utilization.

6 Commission staff (Staff) reviewed the Company’s request and concluded that it is in the public interest because it will support government operations to address modernization of communication services and development. Accordingly, Staff recommends the Commission grant the Company’s request.

### DISCUSSION

7 We agree with Staff’s recommendation and grant the Company’s request. We find that the request is in the public interest because the number block will be used to meet the requirements for a customer’s operations, the numbers will be used within six months, and the Company provided documentation of the request and current proof of utilization.

### FINDINGS AND CONCLUSIONS

8 (1) The Commission is an agency of the State of Washington vested by statute with the authority to regulate the rates, rules, regulations, practices, accounts, securities, transfers of property and affiliated interests of public service companies, including telecommunications companies.

9 (2) TCAL is a telecommunications company and a public service company subject to Commission jurisdiction.

10 (3) The Telecommunications Act of 1996 (the Act) allows the FCC to establish rules to implement the Act and delegate authority to state Commissions.

11 (4) The FCC has created a “safety valve” mechanism within the framework of number resource management and delegated to the Commission authority to grant

<sup>1</sup> *In the Matter of Numbering Resource Optimization*, Third Report and Order and Second Order on Reconsideration, CC Docket 99-200, FCC No. 01-362, ¶¶ 57-66 (Rel. December 21, 2001).

requests by companies that receive a specific customer request for numbering resources that exceeds their available inventory. The FCC has also given states flexibility to direct the Number Pooling Administrator to assign additional numbering resources to companies that have demonstrated a verifiable need for additional numbering resources.

- 12 (5) The Commission has jurisdiction over this matter pursuant to RCW 80.36.610,  
which authorizes the Commission to take actions necessary to implement the Act.
- 13 (6) Normally, additional numbering resources are granted only when existing  
resources are forecasted to exhaust within six months.<sup>2</sup>
- 14 (7) The NANPA's website reports that the 253 NPA is forecasted to exhaust in 2055.
- 15 (8) The request is being made to meet the requirements for a telecommunications  
company. All of the requested numbers will be used within six months.
- 16 (9) This matter came before the Commission at its regularly scheduled meeting on  
January 30, 2025.
- 17 (10) The Commission has reviewed the request and concludes that the Company has  
demonstrated a legitimate need for numbers to meet a customer requirement and  
granting the request is in the public interest. Accordingly, the Commission will  
order the Number Pooling Administrator to release 1,000 sequential numbers in  
the 253 NPA from the Tacoma Rate Center, to TCAL.

## ORDER

### THE COMMISSION ORDERS:

- 18 (1) The Number Pooling Administrator must release 1,000 sequential numbers from  
the 253 NPA, Tacoma Rate Center, to Teleport Communications America, LLC.
- 19 (2) The Commission retains jurisdiction over this matter to take such future actions as  
may be appropriate.

---

<sup>2</sup> 47 CFR 52.15(g)(3)(iii).

The Commissioners, having determined this Order to be consistent with the public interest, directed the Secretary to enter this Order.

DATED at Lacey, Washington, and effective January 30, 2025.

WASHINGTON UTILITIES AND TRANSPORTATION COMMISSION

JEFF KILLIP  
Executive Director and Secretary
