

CEIP Public Participation Appendix C-5

Notification materials

From April - November 2021, PSE developed and distributed a variety of notifications to inform stakeholders of the CEIP development process, opportunities for engagement and schedule updates.

Materials in this appendix include the following:

- [CEIP e-newsletters](#)
- [Press releases](#)
- [Social media notifications](#)
- [Digital and print advertisements](#)
- [PSE customer emails](#)
- [Spring 2021 partner toolkit](#)
- [Spring 2021 factsheet](#)
- [Tribal engagement letter](#)

CEIP Newsletter #1

Subject: Be part of PSE's first Clean Energy Implementation Plan

[External Sender]

Join us in the clean electric energy transformation

Puget Sound Energy is developing a four-year Clean Energy Implementation Plan (CEIP) to outline how we'll invest in clean electricity and equitably distribute customer benefits. This first CEIP covers the years 2022-2025 and embarks us on a path to [quickly transition our electric supply to carbon free by 2045](#).

We have an ambitious schedule to file this first CEIP. Here's what you can expect:

- **April-July 2021:** PSE engages communities and advisory groups to develop the actions in the CEIP focused on equity
- **August 15, 2021:** PSE files draft CEIP and collect community feedback
- **October 1, 2021:** PSE files final CEIP
- **2022-2025:** Keep the conversation going through CEIP implementation

Our CEIP team is developing a public participation plan to engage our customers, advisory groups and stakeholders on CEIP topics including clean energy values, customer benefits and priorities. The plan will include:

- Engaging the new Equity Advisory Group to lead conversations on equity in energy planning and implementation
- Meeting with PSE's existing advisory groups at key points in CEIP development
 - We anticipate meeting with interested Integrated Resource Plan participants in May to discuss customer benefit indicators, as well as a meeting in late July to discuss draft programs and actions
 - We will also meet with the Low Income Advisory Committee and Conservation Resource Group at their regularly scheduled meetings
- Informing and consulting with customers, including highly impacted communities and vulnerable populations

We expect to share an outline of public participation activities by the end of April. Stay tuned for more!

[LEARN MORE >](#)

New Equity Advisory Group will shape clean energy implementation

We must work to create a new clean energy future that addresses climate change in a way that ensures all our customers, especially those who have not traditionally had access to clean energy, have a voice in and benefit from the transition to clean energy.

PSE is convening an Equity Advisory Group (EAG) to lead equity conversations on clean energy implementation by helping us:

- Advise on metrics to evaluate and measure equity in electric energy planning
- Identify barriers to clean energy programs that benefit our customers
- Develop approaches that expand equity, so clean energy is accessible, affordable, and accountable

The first EAG Meeting will be [streamed online](#) on Monday, April 19 from 4-7 p.m. We invite our community members to observe EAG meetings and [submit comments and questions](#) for the EAG to consider in future meetings.

[LEARN MORE >](#)

Share your ideas for a clean energy future

We know we can't do this work alone and PSE is ready to listen. We're partnering with our customers, community organizations, and advisory groups to develop and implement the CEIP roadmap in a way that addresses our shared clean energy goals and our customer needs.

Here's how you can participate:

- Get the latest updates on the CEIP website: cleanenergyplan.pse.com
- Submit a comment or question via email: ceip@pse.com
- Leave a voice message by calling: (425) 818-2051
- Watch for an upcoming survey to share what you value about clean energy

Sincerely,

Diann Strom

Clean Energy Implementation Plan (CEIP) Updates

Thank you for joining us on our journey to develop our first four-year roadmap as we transition our [electric supply to carbon-free by 2045](#). The CEIP will not only guide our energy investments from the years 2022-2025 but how we'll build an equitable and sustainable clean electricity future.

Upcoming events:

- April 30, 2021: Public Participation Plan available
- May 1 – June 1, 2021: Clean Electricity Benefits survey available
- May 3, 2021: Equity Advisory Group meeting
- May 17, 2021: Equity Advisory Group meeting
- May 22, 24-26: Equity Advisory Group small group meetings (planned)
- May 26: Meeting with interested Integrated Resource Plan stakeholders (planned)

Public Participation Plan available on April 30, 2021

We're excited to publish our first CEIP public participation plan, which outlines how we will engage our customers, advisory groups and stakeholders on CEIP topics, including clean electricity values, customer benefits and priorities. We will file the public participation plan with the Washington Utilities and Transportation Commission (UTC) on April 30, as well as post it to the CEIP website. We hope to learn from this first plan as we engage customers and expect to update it as we move forward in this and future CEIP processes.

Clean Electricity Benefits survey available May 1 – June 1, 2021

We're partnering with our customers and advisory groups to develop the CEIP. We need your help to understand the kinds of benefits you want to see in our clean electricity future together. By taking the survey, your input will help us understand the benefits customers want to see from the clean electricity transition and inform programs that shape a more equitable and sustainable future together. The survey will be available on the CEIP website on May 1.

Equity Advisory Group (EAG) meeting Monday, May 3, 2021, at 4 p.m.

PSE has convened an Equity Advisory Group to lead equity conversations on the clean electricity transition. The EAG's second meeting is scheduled for Monday, May 3 from 4-7 p.m. During this meeting, the EAG will discuss potential barriers, burdens and opportunities for customers in the

clean electricity transformation.

Additional EAG Meetings planned for May:

- 5/17: EAG Meeting #3 from 4-7 p.m.
- 5/22, 5/24-5/26: Small group EAG meetings

The EAG meeting will be [streamed online](#) and the agenda and materials are available on the [CEIP website](#). We invite our community members to observe EAG meetings and [submit comments and questions](#) for the group to consider in future sessions. Information about the EAG and past meeting materials are available on the CEIP website.

[LEARN MORE >](#)

Engaging with PSE's other advisory groups

We plan on engaging with our other advisory groups in May-early June and again in July. We plan on hosting a meeting with Integrated Resource Plan (IRP) stakeholders on May 26 from 1-3:30 p.m. to discuss customer benefits. Stay tuned for more on the CEIP-hosted IRP stakeholder meeting!

Clean Energy Implementation Plan (CEIP) updates

Here's the latest news on our journey to [100% clean electricity by 2045](#). The CEIP will guide our energy investments for the years 2022-2025 and create benefits to build an equitable and sustainable clean electricity future. It's the first of many four-year plans to get us to our goal.

Key highlights:

- **Available now:** Draft customer benefit indicators
- **June 21:** Equity Advisory Group meeting #5
- **July 26:** Equity Advisory Group meeting #6
- **July 29:** CEIP-hosted Integrated Resource Plan stakeholder meeting
- **Aug. 15:** PSE files the draft CEIP

Draft customer benefit indicators available now

We spent May and early June focused on gathering customer, community and advisory group input on clean electricity values and benefits. We collected input via online surveys, multiple advisory group meetings, and "go to you" meetings with community-based organizations, and analyzed this input to develop draft customer benefit indicators (CBIs). CBIs are attributes or outcomes related to PSE's clean electricity resources and investments. Once final, the CBIs along with other factors will help shape our CEIP program, action and investment decisions and help ensure all customers benefit through the transition to clean

Clean Energy Implementation Plan (CEIP) updates

Here's the latest news on our journey to [100% clean electricity by 2045](#). The CEIP will guide our energy investments for the years 2022-2025 and create benefits to build an equitable and sustainable clean electricity future. It's the first of many four-year plans to get us to our goal.

Key highlights:

- **July 21:** PSE files petition for CEIP process extension
- **July 26:** Equity Advisory Group meeting #6
- **July 29:** CEIP-hosted Integrated Resource Plan stakeholder meeting

PSE proposes a 60+ day extension in the CEIP process

The timeline for the first CEIP has been ambitious from the start, and we've heard feedback from individual Equity Advisory Group (EAG) members, as well as other stakeholders, that the process rush was limiting meaningful engagement. In response to this feedback, on Wednesday, July 21, PSE filed a petition with the Washington Utilities and Transportation Commission (UTC) requesting to extend the CEIP process.

Proposed new dates:

This schedule extension will allow us more time to work directly with the Equity Advisory Group, as well as other advisory groups, and allow for additional engagement with customers and time for PSE to address feedback received between the draft and final CEIPs. We're hopeful the UTC will approve this decision.

Equity Advisory Group (EAG) meeting Monday, July 26, 2021, at 4 p.m.

The EAG leads equity conversations on the clean electricity transition. The EAG's next meeting is scheduled for Monday, July 26, from 4 - 6:30 p.m. During this meeting, PSE will seek input on updated draft customer benefit indicators and refresh on the EAG's role in the electric resource planning process.

The EAG meeting will be [streamed online](#), and the agenda and materials are available on the [CEIP website](#). We invite our community members to observe EAG meetings and [submit comments and questions](#) for the group to consider in future sessions. Information about the EAG and past meeting materials are available on the CEIP website.

Clean Energy Implementation Plan (CEIP) updates

The Washington Utilities and Transportation Commission's (UTC) next open meeting will be on August 12, 2021. PSE's petition for a 60+ day extension in the Clean Energy Implementation Plan (CEIP) development process will be on the agenda for public comment. PSE filed to extend the CEIP process on July 21, 2021 in response to Equity Advisory Group and other stakeholder feedback.

- For information on the UTC's open meeting, visit: [Open Meeting 2021-08-12T09:30:00-07:00 \(wa.gov\)](#).
- To provide comments on docket 210571, visit: [UTC Case Docket Document Sets | UTC \(wa.gov\)](#).

About PSE's proposed CEIP extension

The goals and timeline for the first CEIP have been ambitious from the start – expanding public participation beyond what has traditionally been done in utility resource planning on a short timeline and during a pandemic. Strict and short schedules are often a barrier to equity, and allowing more time for discussion and input recognizes the importance of equity in developing the CEIP to reflect community interests. In response, we have filed to extend the CEIP process for

Proposed new dates:

- Oct. 15: PSE files the draft CEIP
- Dec. 17: PSE files the final CEIP

Clean Energy Implementation Plan (CEIP) updates

Here's the latest news on our journey to [100% clean electricity by 2045](#). The CEIP will guide our energy investments for the years 2022-2025 and create benefits to build an equitable and sustainable clean electricity future. It's the first of many four-year plans to get us to our goal.

Key highlights:

- **CEIP schedule extended** by 60+ days
- **Public participation plan updated** for additional stakeholder engagement
- **Sept. 13:** Equity Advisory Group (EAG) meeting #7
- **Sept. 14:** CEIP meeting for Integrated Resource Plan (IRP) stakeholders

CEIP schedule extended by 60+ days for additional stakeholder engagement

On Aug. 12, the Washington Utilities and Transportation Commission (UTC) approved PSE's request to extend the CEIP process by 60+ days in response to EAG and other stakeholder feedback. This extension allows for more time to engage with advisory groups and for PSE to address feedback we collect between the draft and final CEIP.

- **Oct. 15:** PSE files the draft CEIP
- **Dec. 17:** PSE files the final CEIP

We have prepared an addendum to our public participation plan that updates our approach and work plan for stakeholder engagement and CEIP development. This addendum outlines additional meetings with PSE's four advisory groups and an adjusted schedule for public participation opportunities leading up to the final CEIP filing on Dec. 17. The addendum is included as Chapter 4 of the updated public participation plan.

the first of many four-year plans to get us to our goal.

This first draft CEIP:

- Moves PSE forward to nearly 60 percent clean electricity by the end of 2025– well on the way to meeting our clean energy goals for 2030 and 2045.
- Removes coal as a source of electricity from our grid by the end of 2025.
- Ramps up our clean electricity resources - like large-scale wind energy and local rooftop and ground solar energy projects that partner with homes and businesses.
- Provides customers with more opportunities to save energy and reduce their costs through improving their energy efficiency.
- Sets a new direction for local rooftop and ground solar and battery storage programs, as well as incentives to reduce energy use during peak periods.
- Ensures the benefits of the clean energy transition are distributed equitably and sets us on the path to building a more inclusive, carbon-free future.

View the full draft CEIP document and Appendices on our website at cleanenergyplan.pse.com.

Get involved and learn more

PSE has a variety of ways you can comment on the draft CEIP between now and Nov. 12:

- [Submit a comment form](#)
- Send an email to ceip@pse.com
- Leave a voice message by calling: 425-818-2051
- [Visit the online open house website and take a survey](#)

We will also meet with our advisory groups this fall to discuss the draft CEIP.

PSE will review and consider comments to shape the final CEIP that will be filed with the UTC by Dec. 17, 2021. We want to help ensure all customers benefit from the transition to clean electricity, and we value your feedback on

Clean Energy Implementation Plan (CEIP) updates

Here's the latest news on our journey to 100% clean electricity by 2045. PSE filed the [draft CEIP](#) with the Washington Utilities and Transportation Commission (UTC) on Oct. 15 and is available for public review. [Visit our online open house website to learn more and take a survey.](#)

Key highlights:

- **Nov. 1:** EAG meeting #10
- **Nov. 3:** CEIP meeting for IRP stakeholders
- **Nov. 8:** Draft CEIP public information session for community-based organizations and other stakeholders
- **Nov. 12:** Draft CEIP public comment period closes

Equity Advisory Group (EAG) meeting Monday, Nov. 1 at 4 p.m.

The Equity Advisory Group leads equity conversations on the clean electricity transition. The EAG's next meeting is scheduled for Monday, Nov. 1, from 4-6:30 p.m. During this meeting, PSE will provide an update on the draft CEIP and address questions. PSE will also revisit the guiding principles for CEIP implementation and share about equity considerations for the draft Distributed

The EAG meeting will be [streamed online](#) and we invite our community members to observe EAG meetings and [submit comments and questions](#) for the group to consider in future sessions. Find materials for this meeting at cleanenergyplan.pse.com.

[LEARN MORE >](#)

CEIP meeting for IRP Stakeholders Wednesday, Nov. 3, at 1 p.m.

Puget Sound Energy invites Integrated Resource Plan (IRP) stakeholders to an online meeting on Nov. 3 from 1-4 p.m. to discuss the draft Clean Energy Implementation Plan (CEIP), address feedback from the Oct. 6 IRP meeting and share updates on the draft CEIP. This meeting is open to anyone interested in CEIP development.

The agenda and materials will be posted to cleanenergyplan.pse.com by the end of Friday, Oct. 29.

[REGISTER FOR THE MEETING >](#)

Public information session for community-based organizations and other stakeholders Monday, Nov. 8 at 5 p.m.

We're hosting an information session for community-based organizations and other stakeholders who are not already involved in advisory group meetings to learn about and comment on the draft CEIP. Join us from 5-6 p.m. on Monday, Nov. 8 to engage in a discussion around clean electricity and learn how community members can stay involved in the clean electricity transformation.

[REGISTER FOR THE MEETING >](#)

Visit our CEIP online open house website and provide feedback on the draft plan through Nov. 12!

PSE forms Equity Advisory Group as it develops its Clean Energy Implementation Plan

PSE's Equity Advisory Group includes representation from BIPOC, LBGTQIA+ and social service organizations

BELLEUE, Wash. (6/9/2021) Puget Sound Energy has convened an Equity Advisory Group (EAG) that will advise the state's largest utility on its Clean Energy Implementation Plan (CEIP) set by the state's groundbreaking climate legislation passed in 2019– the Washington Clean Energy Transformation Act.

The implementation plan is the company's four-year roadmap that will outline clean electricity targets, actions and programs. The advisory group is helping to frame the plan with equity and community interests in mind. The group is considering ways to equitably distribute benefits and reduce burdens that stem from electric planning decisions, so that the clean electricity transformation is affordable, accountable and accessible.

"As we make this clean energy transition, it's not lost on me that historically many groups have faced barriers to accessing clean energy because of cost, awareness, and systemic inequalities," said Puget Sound Energy President and CEO Mary Kipp. "Clean energy is important but so is ensuring that everyone can afford it and that all voices are heard and included in the transition."

The group is comprised of 13 members generally representing community-based organizations from across PSE's service area. These inaugural members will serve for at least one year to help inform the company's first CEIP and to give shape to the group's governance processes. The advisory group will continue into the future and PSE expects the membership to evolve over time.

"I'm pleased to be a member of the Equity Advisory Group as a voice for seniors, disabled adults and caregivers," said Island Senior Resources Executive Director Cheryn Weiser, one of inaugural members of the group. "Island County has a large and growing population of seniors that are often overlooked in planning efforts. Additionally, I have a long standing commitment to clean energy and see it as an imperative. I've learned about PSE's efforts in planning for a clean energy future and the importance of integrating the mandates in CETA with planning for an equitable future for all. The underlying issues are complex and will require innovative strategies and tactics to assure success."

"I'm participating to help ensure that members of the Latino community have an opportunity to voice their ideas on how clean energy will benefit their day to day lives," said El Centro de la Raza Executive Director Estela Ortega, another inaugural member of the group.

The 2021 Equity Advisory Group is facilitated by Rose McKinney-James of Advocacy BL/ACK and supported by the facilitation team of Maul Foster & Alongi and Triangle Associates. The members include:

- **Susana Bailén Acevedo**, Community advocate
- **Jenny Harding**, GSBA and New Chapter Weddings and Events
- **Emily Larson Kubiak**, Sustainable Connections
- **Michele Ogden** and **Lexi Withers** (alternate), Tacoma Urban League
- **Estela Ortega**, El Centro de la Raza
- **TJ Protho**, Vadis
- **Kate Sander**, HopeSource
- **John Sternlicht**, Economic Development Alliance of Skagit County
- **Dennis Suarez**, Washington Soldiers Home
- **Teresa Taylor**, Lummi Indian Business Council's Office of Economic Policy
- **Mariel Thuraisingham**, Front and Centered
- **Cheryn Weiser**, Island Senior Resources
- **Karia Wong** and **Michael Itti** (alternate), CISC

"We're looking forward to working in partnership with this diverse group and listening, learning and working together to build equity into our electric energy efforts," said Kipp.

In addition to the Equity Advisory Group, PSE is also engaging customers and other stakeholders to develop its first CEIP. To learn more about the Equity Advisory Group and the CEIP, visit cleanenergyplan.pse.com (<https://cleanenergyplan.pse.com>).

PSE is leading utilities with its aspiration to equitably and sustainably reach beyond net zero carbon emissions by 2045. As part of that goal, the company is forming a separate Beyond Net Zero Carbon advisory group, which will be a committee to work on PSE's commitment to reduce carbon emissions on both its natural gas and electric supply.

Puget Sound Energy reveals plan to expand use of clean energy to meet the region's climate goals

PSE invites public comment on clean energy transition plans

BELLEVEUE, Wash. (10/18/2021) Puget Sound Energy submitted its draft plan for expanding use of clean energy to provide electricity customers with safe, reliable and affordable service.

Filed with the Washington Utilities and Transportation Commission (UTC), PSE's Clean Energy Implementation plan (CEIP) (<http://www.cleanenergyplan.pse.com/>) charts a course of action for clean electricity programs and investments for the years 2022-2025, in accordance with goals set by Washington's Clean Energy Transformation Act (CETA).

This plan will move PSE forward to nearly 60 percent clean electricity by end of 2025 – well on the way to meeting its clean energy goals of net zero carbon emissions for all PSE operations and electric supply by 2030 and 100% carbon-free electric supply by 2045.

"While we know we don't have all answers to solve climate change today, we're excited for this positive step forward," said PSE President and CEO Mary Kipp. "This plan is the company's path forward for balancing our clean energy goals with customer expectations of uncompromised reliability, safety and affordability."

Energy is essential for communities, and the implementation plan outlines PSE's path to creating a better energy future for its customers and neighbors across the region. Strategies from the plan include:

- Significantly reduce nonrenewable energy sources from the electricity grid by the end of 2025.
- Ramps up our clean electricity resources, like large-scale wind and local solar energy projects that collaborate with homes and businesses.
- Provide customers with more opportunities to save energy and reduce their costs through improving their energy efficiency.
- Sets new direction for new local rooftop and ground solar and battery programs, as well as incentives to reduce energy use during peak periods.
- Ensure the benefits of the clean energy transition are distributed equitably, and provide a strong foundation for building a more inclusive, carbon-free future.

Washington's groundbreaking Clean Energy Transformation Act (CETA) requires utility plans to ensure that all customers benefit from the transition to clean energy. PSE's plan demonstrates a commitment to a public participation process that strengthens community ties and creates solutions that reflect those values. PSE conducted a thorough and thoughtful planning process in pursuit of strategies to better collaborate and consult with stakeholders, especially historically underrepresented populations.

As part of this commitment, PSE created the Equity Advisory Group (EAG) (<https://www.cleanenergyplan.pse.com/#1388287572>), a diverse group of community leaders and representatives from community-based organizations to prioritize equity and lend their diverse and constructive voices to a process that ensures all customers and communities have access to and benefit from the transition to a clean energy future.

"I believe that we can be a model for regions around the world on what it means to have a clean energy future," said Kipp. "That outlook includes frontline community values and priorities to achieve a just and equitable clean energy future."

As part of its draft CEIP filing, PSE invites customers and the community to participate in a public comment period from Oct. 18 through Nov. 12. PSE will use the public feedback to improve the final plan, which gets submitted to the UTC on Dec. 17. People interested in commenting on the plan can visit [pse.com/plan](http://www.pse.com/plan) (<http://www.pse.com/plan>) to provide their input.

PSE is leading utilities with its aspiration to equitably and sustainably reach beyond net zero carbon emissions by 2045. The CEIP is one many next steps to achieve that goal.

The latest news on what's powering our neighborhoods

The next step toward our clean energy future

A message from PSE President and CEO Mary Kipp

We know our customers care about the environment. That's why PSE aspires to equitably and sustainably reach beyond net zero carbon emissions by 2045. We're aiming to not only slow climate change but to help the families and businesses we serve to reach zero carbon emissions as well.

There are different components that will help get us there, including the state's Clean Energy Transformation Act, a groundbreaking law that sets targets for our electric supply.

We're now developing a new clean electric energy plan with equity and community interests in mind, as we acknowledge that marginalized communities often don't get their voices heard. As part of this process, we have convened an Equity Advisory Group to lead discussions that will help us consider ways to equitably distribute benefits and reduce burdens that stem from electric planning decisions.

While we know we don't have all of the answers to climate change today, by partnering with our customers and the broader community, we aim for change that will make a difference in this global challenge. We invite you to get involved in the planning process. To learn more, visit cleanenergyplan.pse.com.

Thank you for your ongoing support in renewable energy

In 2020, over 80,000 customers participated in one of PSE's Renewable Energy Programs. Here is a breakdown of each program:

Green Power: more than 60,000 customers purchased over 511,150 MWh. Resources include 61.4% Wind from WA, OR, ID, and WY; 34.4% Solar from WA, OR, ID, MT and UT; 2.2% Biogas from WA, OR and ID; 1.4% Landfill Gas from WA, OR and ID, and 0.6% Geothermal from OR and ID.

Solar Choice: more than 10,000 customers purchased over 31,000 MWh of renewable energy generated by 100% solar. These solar resources are all located in Washington, Oregon, and Idaho.

Carbon Balance: more than 18,000 participants purchased 34,359 carbon offsets, a carbon reduction equivalent of over 75 million pounds. These resources include Improved Forest Management (55%) and Methane Capture (45%) facilities located in Washington State.

To learn more visit, pse.com/renewables.

Our new aspiration: Beyond Net Zero Carbon by 2045

With this ambitious goal, we envision the energy we provide not only slowing climate change, but helping reverse it. Learn more about our pathways to go Beyond Net Zero Carbon at pse.com/TOGETHER.

Can I plant around the green box?

You may have seen one of our green metal cabinets in your yard or along a street, but do you know what they are? Inside them are transformers that convert high voltage electricity to levels suitable for your home or business. For safe and reliable operation, keep shrubs at least five feet away. Don't cover, dig beside, enter or insert anything into these pad-mounted transformers. Call PSE if you see a damaged or an opened cabinet and please tell children not to play on or near them.

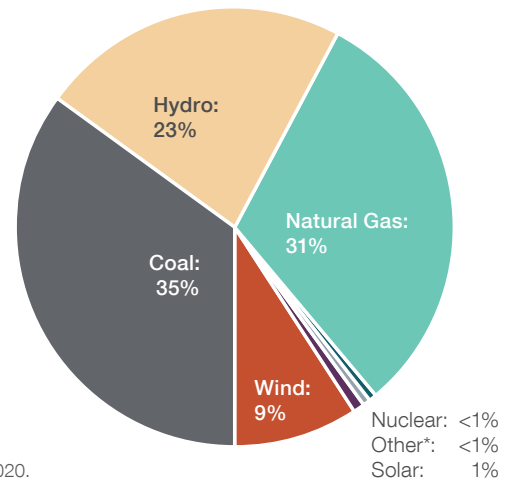

Diverse resources powering your home and business

The electricity generated for you uses a diverse mix of resources. The fuel mix resources used for generating electricity delivered in 2019 are shown in the chart and graph:

2019 electricity fuel mix

Coal	35%
Hydroelectric	23%
Natural Gas	31%
Nuclear	<1%
Other*	<1%
Solar	1%
Wind	9%
Total	100%

*Biomass, non-biogenic, and petroleum.

Puget Sound Energy

Our clean energy future

Let's create a clean electricity future together

Help us include business customer and community values in our Clean Energy Implementation Plan (CEIP). Now through June 1, you can take the Clean Electricity Benefits survey and tell us how you want to benefit from clean electricity and address climate change.

About our Clean Energy Implementation Plan

We aspire to be a beyond net zero carbon energy company and are committed to having a 100% carbon-free electric supply by 2045.

To meet this goal, we are developing our first [Clean Energy Implementation Plan](#) – a roadmap of clean electricity actions, programs and investments to complete over the next four years. We want to ensure all customers benefit from the transition to clean electricity, and we want your input to help shape the plan.

To learn more and be part of the clean electricity transformation, visit: cleanenergyplan.pse.com and take the survey today.

Newsletter Information

The following information is optional to share with your communities about how they can get involved with the Clean Energy Implementation Plan.

Join us in helping Puget Sound Energy build an equitable and sustainable clean electricity plan that addresses climate change and benefits our community. As part of PSE's first Equity Advisory Group, [organization] will help lead conversations around equity in our region's transition to 100 percent clean electricity.

Climate change is among our most urgent challenges to overcome as a community. Today, over 30 percent of PSE's electric energy supply comes from clean sources like wind and hydropower that don't emit greenhouse gas emissions. PSE is partnering with customers to reach a shared goal of 100 percent clean electricity by 2045.

To meet this goal, PSE is developing a roadmap of clean electricity actions, programs and investments to complete over the next four years. It's essential that all community member benefit from these actions, and PSE wants your input to help shape the plan.

To get involved, take PSE's Clean Energy Implementation plan survey at cleanenergyplan.pse.com

The survey closes June 1.

Newsletter Information

The following information is optional to share with your communities about how they can get involved with the Clean Energy Implementation Plan.

Participe con nosotros en ayudar a Puget Sound Energy a construir un plan de electricidad limpia equitativo y sostenible que aborde el cambio climático y beneficie a nuestra comunidad. Como parte del primer Grupo Asesor de Equidad de PSE, [organization] ayudará a liderar conversaciones en lo concerniente a la equidad en la transición a la electricidad 100 % limpia en nuestra región.

El cambio climático está entre nuestros desafíos más urgentes a superar como comunidad. Hoy en día, más del 30 % del suministro de energía eléctrica de PSE proviene de energías limpias como energía eólica e hidroeléctrica que no emiten gases de efecto invernadero. PSE se está asociando con clientes para alcanzar una meta común de electricidad 100 % limpia a 2045.

Para lograr esta meta, PSE está desarrollando un cronograma con las acciones, programas e inversiones de electricidad limpia que se completarán en el transcurso de los próximos cuatro años. Es esencial que todos los miembros de la comunidad se beneficien de estas acciones y PSE desea recibir comentarios de usted para ayudar a darle forma al plan.

Para participar, conteste la encuesta del Plan de implementación de energía limpia de PSE en cleanenergyplan.pse.com

Esta encuesta termina el 1^o de junio.

100% чистую электроэнергию. Получить подробную информацию и принять участие в опросе можно на сайте: cleanenergyplan.pse.com

Newsletter Information

The following information is optional to share with your communities about how they can get involved with the Clean Energy Implementation Plan.

Присоединяйтесь к нам и помогите компании "Puget Sound Energy" в разработке плана по равному и справедливому обеспечению чистой электроэнергией, отвечающего интересам нашего сообщества и способного решить проблему изменения климата. В рамках участия в первой консультативной группе по вопросам равенства и справедливости PSE [organization] вводит для обсуждения тему обеспечения равных возможностей при переходе на 100% чистую электроэнергию в нашем регионе.

Изменение климата - это одна из первоочередных задач, которую нам необходимо решить, как единому сообществу. На сегодняшний день свыше 30 процентов поставок электроэнергии компании PSE производится из чистых источников энергии - энергии ветра, воды, которые не выделяют парниковых газов. Совместно с потребителями компания PSE стремится к общей цели - переходу на 100% чистую электроэнергию к 2045 г.

Для достижения этой цели компания PSE разрабатывает план действий, программ и инвестиций, связанных с чистой электроэнергией, на ближайшие четыре года. Очень важно, чтобы эта деятельность отвечала интересам всех членов сообщества, поэтому компания PSE предлагает вам помочь в составлении плана.

Чтобы принять участие в составлении плана по переходу на чистую электроэнергию компании PSE, заполните анкету на сайте: cleanenergyplan.pse.com

Опрос будет завершен 1 июня.

Newsletter Information

The following information is optional to share with your communities about how they can get involved with the Clean Energy Implementation Plan.

Tham gia cùng chúng tôi để giúp Puget Sound Energy xây dựng kế hoạch cung cấp điện sạch bền vững và công bằng nhằm giải quyết vấn đề biến đổi khí hậu và mang lại lợi ích cho cộng đồng chúng ta. Là thành viên của Nhóm Tư vấn Bình đẳng đầu tiên của PSE, [organization] sẽ giúp dẫn dắt các cuộc đối thoại xoay quanh vấn đề bình đẳng khi cộng đồng của chúng ta chuyển đổi sang 100% điện sạch.

Biến đổi khí hậu là một trong những thách thức cấp bách nhất mà cộng đồng chúng ta phải vượt qua. Ngày nay, hơn 30% nguồn cung cấp năng lượng điện của PSE đến từ các nguồn sạch như gió và thủy điện không phát thải khí nhà kính. PSE đang hợp tác với khách hàng để đạt được mục tiêu chung là 100% điện sạch đến năm 2045.

Để đạt được mục tiêu này, PSE đang xây dựng lộ trình bao gồm các hành động, chương trình và khoản đầu tư về điện sạch cần hoàn thành trong vòng bốn năm tới. Điều cần thiết là tất cả thành viên cộng đồng đều được hưởng lợi từ những hành động này và PSE muốn nhận được ý kiến đóng góp của quý vị để xây dựng kế hoạch.

Để tham gia, hãy làm khảo sát về kế hoạch Triển khai Năng lượng Sạch của PSE tại cleanenergyplan.pse.com

Khảo sát kết thúc vào ngày 1 tháng 6.

Newsletter Information

The following information is optional to share with your communities about how they can get involved with the Clean Energy Implementation Plan.

加入我們，協助 Puget Sound Energy 打造平等且永續的清潔電力計畫，藉以應對氣候變遷並造福我們的社群。[organization] 作為 PSE 首個衡平諮詢團體，將會在我們的區域轉型為 100% 清潔電力的過程中，協助引導進行關於平等性的討論。

氣候變遷是我們這個社群最需迫切解決的挑戰。目前，PSE 供應的電能之中逾 30% 源自乾淨能源，例如不會排放溫室氣體的風力與水力發電。PSE 目前與各個客戶合作，共同目標是在 2045 年之前達到 100% 清潔電力。

為了實現這項目標，PSE 正在擬定在未來四年預計完成的清潔電力行動、計畫和投資的發展藍圖。重要的是所有社群成員都要能夠從這些行動中受惠，因此 PSE 希望您出一份力來協助擬定計畫。

若願意參與，請至 cleanenergyplan.pse.com 進行 PSE 清潔能源實施計畫問卷調查

問卷將於 6 月 1 日關閉。

Newsletter Information

The following information is optional to share with your communities about how they can get involved with the Clean Energy Implementation Plan.

Puget Sound Energy को एक समान और टिकाऊ स्वच्छ बिजली योजना बनाने में मदद करने में हमारा साथ दें जो जलवायु परिवर्तन का निवारण करे और हमारे समुदाय को लाभान्वित करे। PSE के प्रथम इकिटी सलाहकार समूह के भाग के रूप में, [organization] हमारे क्षेत्र के 100 प्रतिशत स्वच्छ बिजली के बदलाव में इकिटी पर बातचीत का नेतृत्व करने में मदद करेगा।

जलवायु परिवर्तन एक समुदाय के रूप में दूर करने के लिए हमारी सबसे जरूरी चुनौतियों में से एक है। वर्तमान में, PSE की लगभग 30 प्रतिशत से अधिक बिजली आपूर्ति पवन और पन बिजली जैसे स्वच्छ स्रोतों से आती है जो ग्रीनहाउस गैस उत्सर्जन नहीं करते हैं। PSE 2045 तक 100 प्रतिशत स्वच्छ बिजली के साझा लक्ष्य तक पहुंचने के लिए ग्राहकों के साथ साझेदारी कर रहा है।

इस लक्ष्य की पूर्ति के लिए, PSE अगले चार वर्षों में सम्पूर्ण करने के लिए स्वच्छ बिजली कार्यों, कार्यक्रमों और निवेश का एक रोडमैप विकसित कर रहा है। यह आवश्यक है कि सभी समुदाय सदस्य इन कार्यों से लाभान्वित हों, और PSE चाहता है कि आपकी राय योजना को आकार देने में मदद करे।

इसमें शामिल होने के लिए, PSE के स्वच्छ ऊर्जा कार्यान्वयन योजना सर्वेक्षण पर यहाँ जाएं cleanenergyplan.pse.com
सर्वेक्षण 1 जून को बंद होगा।

Clean Energy Implementation Plan

Spring 2021

Let's create a clean energy future together

Puget Sound Energy is developing its first Clean Energy Implementation Plan (CEIP), a four-year roadmap that will guide our clean electricity actions, programs and investments for the years 2022-2025.

We need your help to include our customer and community values in our plan.

The path to 100% clean electricity

The Clean Energy Implementation Plan (CEIP) is an important piece of our long-term energy planning efforts to eliminate carbon emissions from our region's electricity supply and meet the goals of Washington's Clean Energy Transformation Act (CETA), a new law that enables PSE to move further and faster on delivering clean electricity.

The electricity that powers your home or business comes from a variety of sources. Today, more than 30 percent of PSE's electric energy supply comes from clean sources like wind and hydropower that don't emit greenhouse gas emissions. Our shared goal is to reach 100 percent clean electricity by 2045.

Clean electricity milestones

2025

Coal-free electricity

2030

Carbon-neutral electric system

2045

100% clean electricity

Share your ideas

We know we can't do this work alone and PSE is ready to listen.

We're partnering with our customers, community organizations, and advisory groups to develop and implement the CEIP roadmap in a way that addresses our shared clean electricity goals and our customer needs.

Here's how you can participate:

- Visit our website to learn more: cleanenergyplan.pse.com
- Submit a comment or question via email: ceip@pse.com
- Leave a voice message by calling: 425-818-2051

About the Clean Energy Transformation Act

In 2019, Governor Inslee signed into law the Clean Energy Transformation Act (CETA), committing Washington to provide electricity free of greenhouse gas emissions by 2045. CETA includes provisions for affordability and reliability and ensuring all customers benefit from the clean energy transformation.

Equity in energy planning

As we work to create a new clean energy future and address the urgent need to limit climate change, we must do so in a way that ensures all of our customers, especially frontline communities that shoulder an outsized share of climate change burdens, are included in the transition to clean electricity.

We're working to ensure all customers benefit from the transition to clean electricity.

Equity Advisory Group

PSE is engaging an inaugural Equity Advisory Group (EAG) to help seek perspectives from and broaden engagement with communities we serve, including frontline communities of low-income people and Black, Indigenous, and People of Color (BIPOC). Our goal is to better understand frontline community values and priorities as we work to deliver a just and equitable clean energy future.

Building community values into clean electricity planning

We need to move swiftly to engage our communities and submit our first Clean Energy Implementation Plan (CEIP). PSE will consider the community input we collect this spring and complete the draft CEIP on Aug. 15, 2021. The final CEIP must be filed with the Utilities and Transportation Commission by Oct. 1, 2021.

April-June 2021

Engage communities to develop CEIP focused on equity

Collect input on:

- Clean energy values
- Customer benefit interests
- Ideas to advance equity in energy

July-October 2021

Solicit comments on draft CEIP

Compile and respond to feedback on draft CEIP, including:

- Incorporating feedback into actions, targets and expected outcomes
- Developing proposed approach to clean electricity implementation

2022-2025

Implement CEIP

Keep the conversation going:

- Continue to refine elements for the next CEIP
- Engage customers in clean electricity program development and implementation

Plan de implementación de energía

Primavera 2021

Construyamos un futuro de energía limpia juntos

Puget Sound Energy está desarrollando su primer Plan de Implementación de Energía Limpia (CEIP), un cronograma de cuatro años que guiará nuestros programas, acciones e inversiones de energía limpia para los años 2022 a 2025.

Necesitamos su ayuda para incluir los valores de nuestros clientes y comunidades en nuestro plan.

El camino a la electricidad 100% limpia

El Plan de Implementación de Energía Limpia (CEIP) es una parte importante de nuestra planificación energética a largo plazo para eliminar las emisiones de carbono del suministro eléctrico de nuestra región y alcanzar las metas de la Ley de Transformación de Energía Limpia (CETA) de Washington, una nueva ley que permite que PSE avance más y se mueva más rápidamente hacia entregar electricidad limpia.

La electricidad que da energía a su hogar o empresa viene de diversas fuentes. Hoy en día, más del 30 % del suministro de energía eléctrica de PSE proviene de energías limpias como energía eólica e hidroeléctrica que no emiten gases de efecto invernadero. Nuestra meta compartida es alcanzar un 100 % de electricidad limpia a 2045.

Hitos de la electricidad

2025

Electricidad sin carbón

2030

Sistema eléctrico neutro en carbono

2045

Electricidad 100% limpia

Comparta sus ideas

Sabemos que no podemos lograrlo solos y PSE está lista para escuchar.

Nos estamos asociando con nuestros clientes, organizaciones comunitarias y grupos asesores para desarrollar e implementar el cronograma de CEIP de una manera que aborde nuestros objetivos de electricidad limpia compartidos y las necesidades de nuestros clientes.

Puede participar de la siguiente manera:

- Visite nuestro sitio web para conocer más: cleanenergyplan.pse.com
- Enviar un comentario o pregunta por correo electrónico: ceip@pse.com
- Dejar un mensaje de voz llamando a: 425-818-2051

Sobre la Ley de Transformación de Energía Limpia (Clean Energy Transformation Act)

En el 2019, el gobernador Inslee promulgó la Ley de Transformación de Energía Limpia (CETA) (Clean Energy Transformation Act (CETA)), comprometiendo a Washington a suministrar electricidad libre de emisiones de gases de efecto invernadero para el 2045. CETA incluye disposiciones para la asequibilidad y confiabilidad y para asegurarse de que todos los clientes se beneficien de la transformación a energía limpia.

Equidad en planificación de energía

A medida que trabajamos para crear un futuro de energía limpia y abordamos la necesidad urgente de limitar el cambio climático, debemos hacerlo de una manera que garantice que todos nuestros clientes, especialmente las comunidades de primera línea que llevan una participación descomunal de las cargas de cambio climático, sean incluidas y se beneficien en la transición a la electricidad limpia.

Estamos trabajando para asegurar que todos los clientes se beneficien de la transición a electricidad limpia.

Grupo Asesor de Equidad

PSE está incluyendo la participación de un Grupo Asesor de Equidad (EAG) inaugural para ayudar en la búsqueda de perspectivas y ampliar la participación con las comunidades a las que servimos, incluyendo comunidades de primera línea de personas de bajos ingresos y personas de raza negra, indígenas y morenas (Black, Indigenous, and People of Color (BIPOC)). Nuestra meta es entender mejor las prioridades y valores de las comunidades de primera línea a medida que trabajamos en entregar un futuro de energía limpia equitativo y justo.

Inclusión de valores comunitarios en la planificación de electricidad limpia

Tenemos que movernos rápidamente para involucrar a nuestras comunidades y presentar nuestro Plan de Implementación de Energía Limpia (CEIP). PSE considerará los comentarios que recolectemos de las comunidades esta primavera y completará el CEIP preliminar el 15 de agosto de 2021. El CEIP final debe presentarse ante la Comisión de Servicios Públicos y Transporte (UTC) a la fecha del 1ro de octubre de 2021.

Abril - junio de 2021
Involucrar a las comunidades para desarrollar el plan CEIP centrado en la equidad

Recolectar *input* sobre:

- Valores relativos a la energía limpia
- Prioridades e intereses en cuanto a beneficios de clientes

Julio - octubre de 2021
Solicitar comentarios sobre el plan CEIP preliminar

Recopilar y dar respuesta a los comentarios sobre el CEIP preliminar, incluso:

- Incorporando comentarios en las acciones, los objetivos y los resultados esperados
- Desarrollando el abordaje propuesto hacia la implementación de electricidad limpia

2022-2025
Implementar el CEIP

Mantener la conversación en marcha:

- Continuar afinando elementos para el próximo CEIP
- Conseguir la participación de los clientes en el desarrollo e implementación del programa de electricidad limpia

План внедрения чистой энергии

Весна 2021 г.

Давайте создавать будущее чистой энергетики вместе

Компания "Puget Sound Energy" разрабатывает свой первый план по переходу на чистую энергию (CEIP), план мероприятий на четыре года, который задаст направление всех наших действий, программ и инвестиций в области чистой энергетики на 2022-2025 гг.

Нам нужна ваша помощь, чтобы при разработке плана учесть в нем ценности сообщества и наших потребителей.

Путь к 100% чистой электроэнергии

План внедрения чистой энергии (CEIP) является важной частью наших долгосрочных усилий по планированию энергетики, направленных на устранение выбросов углерода при производстве электроэнергии для нашего региона и достижение целей Закона штата Вашингтон о преобразовании за счет чистой энергии (CETA), нового закона, который позволяет PSE ускоренными темпами двигаться вперед к поставкам чистой электроэнергии.

Электричество поступает к вам в дом или на работу из разных источников. На сегодняшний день более 30 процентов поставок электроэнергии от компании PSE осуществляется из чистых источников - энергии ветра и воды, при получении которой не выделяются парниковые газы. Наша общая цель - достичь обеспечения 100% чистой электроэнергии к 2045 г.

Поделитесь своими идеями насчет будущего чистой электроэнергии

Мы знаем, что не осилим эту задачу самостоятельно, поэтому компания PSE готова выслушать ваши предложения.

Для разработки и внедрения плана мероприятий CEIP, отвечающего нашим общим целям в вопросах чистой энергии и потребностям наших потребителей, мы сотрудничаем с нашими потребителями, общественными организациями и консультационными группами.

Как принять участие:

- Больше информации можно получить на нашем веб-сайте: cleanenergyplan.pse.com
- Ждем ваши комментарии и вопросы по электронной почте: ceip@pse.com
- Можете оставить голосовое сообщение по номеру: 425-818-2051

Основные этапы программы чистой электроэнергии

2025

**Безугольное
электричество**

2030

**Углеродно-
нейтральная система
электрообеспечения**

2045

**100% чистое
электричество**

Закон о преобразовании за счет чистой энергии

В 2019 году губернатор Инсли подписал Закон о преобразовании за счет чистой энергии (CETA), обязывающий штат Вашингтон обеспечить электричество без выбросов парниковых газов к 2045 году. В Законе CETA предусмотрены положения о доступности, надежности и заботе об интересах потребителей при переходе на чистую электроэнергию.

Равенство интересов в энергопланировании

Поскольку мы строим будущее с использованием чистой электроэнергии, решая проблему климатических изменений, мы должны спланировать переход таким образом, чтобы перевести на обеспечение чистым электричеством всех своих потребителей, в первую очередь, самые уязвимые категории населения, на которые приходится огромная доля выбросов, влияющих на изменение климата.

Мы работаем над тем, чтобы обеспечить переход к чистой электроэнергии с учетом интересов всех потребителей.

Консультативная группа по вопросам равенства и справедливости

PSE привлекает пилотную консультативную группу по вопросам справедливости и равенства, для того чтобы определить перспективы и привлечь к участию сообщества, обслуживанием которых занимается компания, в первую очередь, сообщества людей с низким доходом, а также темнокожее, коренное и цветное население (BIPOC). Наша цель – лучше понять ценности и приоритеты передового сообщества, поскольку мы работаем над созданием справедливого и равноправного будущего в области чистой электроэнергии.

Планирование в секторе “чистой” электроэнергии с учетом общественных ценностей

Нам необходимо в сжатые сроки привлечь к участию в проекте представителей общественности и направить на рассмотрение свой первый план по переходу к чистой электроэнергии. Компания PSE соберет данные опроса общественного мнения, который проводится этой весной, и на основе результатов опроса завершит доработку проекта CEIP к 15 августа 2021 г. Окончательный проект плана CEIP необходимо представить на рассмотрение в Комиссию по коммунальному обслуживанию и транспорту к 1 октября 2021 г.

Апрель – июнь 2021 года
Привлечение
общественности к
разработке плана CEIP
на основе принципов
равенства

Собрать данные по
следующим вопросам:

- Ценности чистой энергии
- Интересы и приоритеты клиентов
- Идеи по продвижению справедливости в области энергетики

Июль - октябрь 2021 года
Сбор отзывов о проекте
плана CEIP

Собрать отзывы
по проекту CEIP и
подготовить ответы, в том
числе:

- Включение отзывов в действия, цели и ожидаемые результаты
- Разработка предлагаемого подхода к внедрению чистой энергии

2022-2025
Реализация плана CEIP

Продолжение обсуждения:

- Продолжить уточнение элементов для следующего плана CEIP
- Привлечь клиентов к разработке и внедрению программ чистой энергии

Kế hoạch Triển khai Năng lượng Sạch

Mùa xuân năm 2021

Hãy cùng nhau tạo nên tương lai năng lượng sạch

Puget Sound Energy đang phát triển Kế hoạch Triển khai Năng lượng Sạch (CEIP) đầu tiên; đây là lộ trình bốn năm định hướng các hành động, chương trình và khoản đầu tư về điện sạch cho các năm 2022-2025.

Chúng tôi cần sự giúp đỡ của quý vị để đưa các giá trị của khách hàng và cộng đồng vào kế hoạch của chúng tôi.

Con đường đến 100% điện sạch

Kế hoạch Triển khai Năng lượng Sạch (CEIP) là một phần quan trọng trong nỗ lực quy hoạch năng lượng dài hạn nhằm loại bỏ phát thải các-bon khỏi nguồn cung cấp điện của khu vực và đáp ứng các mục tiêu của Đạo luật Chuyển đổi Năng lượng Sạch (CETA) của Washington, một luật mới cho phép PSE tiến xa hơn và nhanh hơn trong việc cung cấp điện sạch.

Điện cung cấp cho nhà ở hoặc cơ sở kinh doanh của quý vị đến từ nhiều nguồn khác nhau. Ngày nay, hơn 30% nguồn cung cấp năng lượng điện của PSE đến từ các nguồn sạch như gió và thủy điện không phát thải khí nhà kính. Mục tiêu chung của chúng tôi là đạt 100% điện sạch đến năm 2045.

Các mốc triển khai điện

2025

Điện không than

2030

Hệ thống điện trung hòa cacbon

2045

100% điện sạch

Chia sẻ ý kiến của quý vị để có tương lai năng lượng sạch

Chúng tôi biết rằng chúng tôi không thể thực hiện công việc này một mình và PSE sẵn sàng lắng nghe.

Chúng tôi đang hợp tác với khách hàng, tổ chức cộng đồng và các nhóm tư vấn để phát triển và thực hiện lộ trình CEIP theo cách giải quyết các mục tiêu chung về năng lượng sạch và nhu cầu của khách hàng.

Đây là cách thức quý vị có thể tham gia:

- Truy cập trang web của chúng tôi để tìm hiểu thêm:
cleanenergyplan.pse.com
- Gửi góp ý hoặc câu hỏi qua email:
ceip@pse.com
- Để lại tin nhắn thoại bằng cách gọi:
425-818-2051

Giới thiệu về Đạo luật Chuyển đổi Năng lượng Sạch

Năm 2019, Thống đốc Inslee đã ký và thông qua Đạo luật Chuyển đổi Năng lượng Sạch (CETA), trong đó cam kết Washington sẽ cung cấp điện không phát thải khí nhà kính đến năm 2045. CETA bao gồm các điều khoản về khả năng chi trả và độ tin cậy, đảm bảo tất cả khách hàng đều hưởng lợi từ việc chuyển đổi năng lượng sạch.

Bình đẳng trong kế hoạch năng lượng

Khi nỗ lực tạo ra một tương lai năng lượng sạch mới và đáp ứng nhu cầu cấp thiết trong việc hạn chế biến đổi khí hậu, chúng tôi phải đảm bảo rằng tất cả khách hàng, đặc biệt là những cộng đồng tuyến đầu gánh vác một phần lớn gánh nặng của biến đổi khí hậu, đều được hưởng lợi từ việc chuyển đổi sang điện sạch.

Chúng tôi đang nỗ lực để đảm bảo tất cả khách hàng đều được hưởng lợi từ việc chuyển đổi sang điện sạch.

Nhóm Tư vấn Bình đẳng

PSE đang thuê Nhóm Tư vấn Bình đẳng (EAG) mới thành lập để giúp tìm kiếm ý kiến đóng góp và mở rộng sự tham gia với các cộng đồng mà chúng tôi phục vụ, bao gồm các cộng đồng tuyến đầu gồm người có thu nhập thấp và Người da đen, Người bản địa và Người da màu (BIPOC). Mục tiêu của chúng tôi là hiểu rõ hơn các giá trị và ưu tiên của cộng đồng tuyến đầu khi nỗ lực mang lại một tương lai năng lượng sạch công bằng và bình đẳng.

Lồng ghép giá trị cộng đồng vào kế hoạch năng lượng sạch

Chúng tôi cần phải nhanh chóng thu hút sự tham gia của cộng đồng và đệ trình Kế hoạch Triển khai Năng lượng Sạch (CEIP) đầu tiên. PSE sẽ xem xét ý kiến đóng góp của cộng đồng mà chúng tôi thu thập được vào mùa xuân này và hoàn thành bản thảo CEIP vào ngày 15 tháng 8 năm 2021. CEIP cuối cùng phải được nộp cho Ủy ban Tiện ích và Vận tải chậm nhất vào ngày 1 tháng 10 năm 2021.

Tháng 4 đến tháng 6 năm 2021 Thu hút sự tham gia của cộng đồng để phát triển CEIP tập trung vào sự bình đẳng

Thu thập ý kiến đóng góp về:

- Các giá trị năng lượng sạch trị năng lượng sạch
- Mối quan tâm và ưu tiên vì lợi ích khách hàng
- Ý kiến đề thúc đẩy bình đẳng về năng lượng

Tháng 7 đến tháng 10 năm 2021 Xin góp ý về dự thảo CEIP

Tổng hợp và trả lời phản hồi về dự thảo CEIP, bao gồm:

- Kết hợp phản hồi vào các hành động, mục tiêu và kết quả mong đợi
- Phát triển cách tiếp cận để xuất đề triển khai năng lượng sạch

**2022-2025
Triển khai CEIP**

Tiếp tục đối thoại:

- Tiếp tục tinh chỉnh các yếu tố cho CEIP tiếp theo
- Thu hút khách hàng tham gia phát triển và triển khai chương trình năng lượng sạch

清潔能源實施計劃

2021年春季

讓我們一同開創清潔能源的未來

Puget Sound Energy 正在擬定第一份為期四年的發展藍圖：清潔能源實施計畫 (CEIP)，預計成為引領 PSE 於 2022 至 2025 年進行清潔電力行動、計畫和投資的準繩。

需要您惠予協助，以利我們將客戶與社區價值觀納入計畫內。

通往 100% 清潔電力的路途

我們努力消除區域內供電的排碳，並響應華盛頓的清潔能源轉型法 (CETA) 此一促使 PSE 朝提供清潔電力進一步加快腳步的新法，而在為了符合該法的目標進行的長期能源規劃之中，清潔能源實施計畫 (CEIP) 是相當重要的一環。

為住宅或公司供電的電力來源有很多種。目前，PSE 供應的電能之中逾 30% 出自乾淨來源，例如不會排放溫室氣體的風力與水力發電。我們共同的目標是在 2045 年前達到 100% 清潔電力。

分享您對於清潔能源未來的看法

我們知道自己無法獨力完成這項工作，而 PSE 準備好聽取意見了。

我們將與客戶、社群組織和諮詢團體合作，將我們的共同目標和客戶需求列入考量，擬定及實施 CEIP 發展藍圖。

以下是您可以參與其中的方式：

- 前往我們的網站以深入了解：
cleanenergyplan.pse.com
- 透過電子郵件提交留言或疑問：
ceip@pse.com
- 來電留下語音訊息：
425-818-2051

清潔電力里程碑

2025
無碳發電

2030
碳中和發電系統

2045
100% 清潔電力

關於清潔能源轉型法

2019 年，華盛頓州長 Inslee 頒佈清潔能源轉型法 (CETA)，承諾該州將於 2045 年供應無排放溫室氣體的電力。CETA 納入負擔能力及可靠性的規定，確保所有客戶均可因清潔能源轉型受惠。

規劃能源衡平

我們為了創造嶄新清潔能源的未來，並為了防止迫在眉睫的氣候變遷問題而努力，在此同時務求在轉型至清潔電力時考慮到所有客戶，尤其是為了氣候變遷而負擔過重的第一線社區。

我們力求確保所有客戶皆因轉型為清潔電力而受益。

衡平諮詢團體

PSE 將召集成立衡平諮詢團體 (EAG)，以助於向我們所服務的社區徵求想法，並且促使更多人參與，包括由低收入戶和黑人、原住民及有色人種 (BIPOC) 組成的第一線社區。我們的目標是更加了解第一線社區秉持的價值觀和優先事項，以利創造正義、衡平且享有清潔能源的未來。

在規劃清潔能源時採納社區價值觀

我們需要快速行動以促使社區參與，並呈送第一份清潔能源實施計畫 (CEIP)。PSE 會將我們於今年春天收集的社區意見列入考量，並於 2021 年 8 月 15 日完成草擬 CEIP。最終 CEIP 必須在 2021 年 10 月 1 日之前呈交給公用事業和運輸委員會。

2021 年 4 月至 6 月
請社區參與制訂以衡平為重點的 CEIP

為下列項目收集意見：

- 清潔能源的價值觀
- 客戶受惠的利益和優先事項
- 推進能源衡平的建議

2021 年 7 至 10 月
對草擬 CEIP 提出評論

彙整並回覆對草擬 CEIP 的意見反應，包括：

- 將意見反映納入行動、目標和預期成效
- 開發清潔能源實施的提案方針

2022-2025
實施 CEIP

持續對話：

- 繼續完善下一份 CEIP 的要素
- 請客戶參與清潔能源方案的研擬與實施

स्वच्छ ऊर्जा कार्यान्वयन योजना

वसंत 2021

आइए एक साथ एक स्वच्छ ऊर्जा भवषिय बनाएं

Puget Sound Energy अपनी पहली स्वच्छ ऊर्जा कार्यान्वयन योजना (CEIP) विकसित कर रहा है, जो चार वर्षों के नवियोजन के रूप में PSE के स्वच्छ बजिली कार्यक्रमों, कार्यों और नवियों का 2022-2025 के दौरान मार्गदर्शन करेगा।

हमें अपने ग्राहक और सामुदायिक मूल्यों को अपनी योजना में शामिल करने के लिए आपकी सहायता की आवश्यकता है।

100% स्वच्छ बजिली का रास्ता

स्वच्छ ऊर्जा कार्यान्वयन योजना (CEIP) हमारे क्षेत्र की बजिली आपूर्ति से कार्बन उत्सर्जन को खत्म करने के लिए दीर्घकालिक ऊर्जा योजना के प्रयासों का एक महत्वपूर्ण हिस्सा है और यह वाशिंगटन के स्वच्छ ऊर्जा परिवर्तन अधिनियम (CETA) के लक्ष्यों को पूरा करती है, जो एक नया कानून है जो स्वच्छ बजिली की आपूर्ति करने के लिए PSE को और तेजी से आगे बढ़ने में सक्षम बनाता है।

आपके घर या व्यवसाय को पॉवर देने वाली बजिली कई प्रकार के स्रोतों से प्राप्त होती है। वर्तमान में, PSE की लगभग 30 प्रतिशत बजिली आपूर्ति पवन और पन बजिली जैसे स्वच्छ स्रोतों से आती है जो ग्रीनहाउस गैस उत्सर्जन नहीं करते हैं। हमारा साझा लक्ष्य 2045 तक 100 प्रतिशत स्वच्छ बजिली तक पहुंचना है।

स्वच्छ बजिली के मील के पत्थर

2025

कोयला रहित बजिली

2030

कार्बन-तटस्थ वद्वियुत प्रणाली

2045

100% स्वच्छ बजिली

स्वच्छ ऊर्जा के भवषिय के लिए अपने वचारों को साझा करें

हम जानते हैं कयिह काम हम अकेले नहीं कर सकते हैं और PSE सुनने के लिए तैयार है।

हम अपने ग्राहकों, सामुदायिक संगठनों और सलाहकार समूहों के साथ भागीदारी कर रहे हैं ताकि हमारे साझा स्वच्छ ऊर्जा लक्ष्यों और हमारे ग्राहक की जरूरतों को पूरा करने वाले CEIP रोडमैप को बनाया और कार्यान्वयित किया जा सके।

यहाँ है की आप कैसे भाग ले सकते हैं:

- हमारी वेबसाइट पर जाएँ और अधिक जानें: cleanenergyplan.pse.com
- ईमेल के माध्यम से कोई टिप्पणी या प्रश्न भेजें: ceip@pse.com
- यहाँ कॉल करके ध्वनि संदेश छोड़ें: 425-818-2051

स्वच्छ ऊर्जा परिवर्तन अधिनियम के बारे में

2019 में, गवर्नर इंसली ने स्वच्छ ऊर्जा परिवर्तन अधिनियम (CETA) कानून पर हस्ताक्षर किए, जिसमें 2045 तक वाशिंगटन को ग्रीनहाउस गैस उत्सर्जन से मुक्त बजिली प्रदान करने के लिए प्रतिबद्ध किया गया है। CETA में सामर्थ्य और वश्वसनीयता के लिए प्रावधान शामिल हैं और स्वच्छ ऊर्जा परिवर्तन से सभी ग्राहकों को लाभ प्राप्त होता है।

ऊर्जा नयोजन में इक्वटी

जैसा कि हम एक नई स्वच्छ ऊर्जा भविष्य बनाने के लिए काम करते हैं और हम जलवायु परिवर्तन को सीमित करने की तत्काल आवश्यकता को संबोधित करते हैं, हमें कुछ ऐसा करना चाहिए जो हमारे सभी ग्राहकों के लिए, विशेष रूप से अग्रिम पंक्तिका समुदाय जो जलवायु परिवर्तन के बोझ का एक बड़ा हिस्सा उठाए बैठे हैं, बजिली ट्रांजिशन में शामिल होना सुनिश्चित करे।

हम सभी ग्राहकों को स्वच्छ बजिली की ट्रांजिशन से लाभ उठाना सुनिश्चित करने के लिए काम कर रहे हैं।

इक्वटी सलाहकार समूह

PSE एक शुरुआती इक्वटी सलाहकार समूह (EAG) को शामिल कर रहा है ताकि हम दृष्टिकोण को व्यापक बनाने में मदद करने के लिए अपने द्वारा सेवा किये जाने वाले समुदायों से मदद प्राप्त कर सकें, जसिमें कम आय वाले लोग और काले, स्वदेशी और पीपल ऑफ़ कलर (BIPOC) वाले फ्रंटलाइन समुदाय शामिल किये हैं। हमारा उद्देश्य फ्रंटलाइन सामुदायिक मूल्यों और प्राथमिकताओं को

स्वच्छ ऊर्जा योजना में सामुदायिक मूल्यों का निर्माण करना

हमें अपने समुदायों को जोड़ने और अपनी पहली स्वच्छ ऊर्जा कार्यान्वयन योजना (CEIP) जमा करने के लिए तत्काल आगे बढ़ने की आवश्यकता है। PSE उस सामुदायिक राय पर विचार करेगा जसि हम इस वसंत में इकट्ठा करते हैं और 15 अगस्त, 2021 को CEIP के मसौदे को पूरा करते हैं। अंतिम CEIP को 1 अक्टूबर, 2021 तक उपयोगिता और परिवहन आयोग के पास दायर किया जाना चाहिए।

अप्रैल-जून 2021

इक्वटी पर केंद्रित CEIP विकसित करने के लिए समुदायों को संलग्न करें

इस पर राय एकत्रित करें:

- स्वच्छ ऊर्जा मूल्य
- ग्राहक लाभ हति और प्राथमिकताएं
- ऊर्जा में इक्वटी शामिल करने के लिए विचार

जुलाई- अक्टूबर 2021

CEIP के मसौदे पर टिप्पणी की वनिती करें

संकलित करें और ड्राफ्ट CEIP पर प्रतिक्रिया दें, जनिमें शामिल यह हैं:

- कार्यों, लक्ष्यों और अपेक्षित परिणामों में प्रतिक्रिया शामिल करना
- स्वच्छ ऊर्जा कार्यान्वयन के लिए प्रस्तावित दृष्टिकोण का विकास करना

2022-2025

CEIP लागू करें

बातचीत जारी रखें:

- अगले CEIP के लिए तत्वों को परिष्कृत करना जारी रखें
- स्वच्छ ऊर्जा कार्यक्रम के विकास और कार्यान्वयन में ग्राहकों को संलग्न करें

Comment on PSE's first Clean Energy Implementation Plan | Fall 2021

Join us on the path to 100% clean electricity

The Clean Energy Implementation Plan (CEIP) is a four-year roadmap that will guide PSE's clean electricity investments for the years 2022-2025. It is the first of many plans that will get us to our goal of 100% clean electricity by 2045 and help ensure all customers benefit from the clean electricity transition.

The CEIP is a four-year roadmap that:

 <p>Moves PSE forward to nearly 60% clean electricity by the end of 2025— well on the way to meeting our clean energy goals for 2030 and 2045.</p>	 <p>Removes coal as a source of electricity from our grid by the end of 2025.</p>
 <p>Ramps up our clean electricity resources - like large-scale wind energy and local rooftop and ground solar energy projects that partner with homes and businesses.</p>	 <p>Provides customers with more opportunities to save energy and reduce their costs through improving their energy efficiency.</p>
 <p>Sets a new direction for local rooftop and ground solar and battery storage programs, as well as incentives to reduce energy use during peak periods.</p>	 <p>Ensures the benefits of the clean energy transition are distributed equitably and sets us on the path to building a more inclusive, carbon-free future.</p>

Background

The CEIP is an important piece of our long-term energy planning efforts to eliminate carbon emissions from our region's electricity supply and meet the goals of Washington's Clean Energy Transformation Act, a new law that enables PSE to move further and faster on delivering clean electricity.

The electricity that powers your home or business comes from a variety of sources. Today, more than 30% of PSE's electric energy supply comes from clean sources like wind and hydropower that don't emit greenhouse gas emissions. Our shared goal is to reach 100% clean electricity by 2045.

Clean electricity milestones

2025
Coal-free electricity

2030
Carbon-neutral electric system

2045
100% clean electricity

Over the next four years, PSE will increase our mix of clean electricity from 35% to 59%

PSE clean electricity portfolio forecast by **end of 2025***

**measured as a % of net retail load*

Energy efficiency programs that lower the amount of energy we use:

Programs like rebates for energy efficient appliances, grants for retrofits and upgrades in energy-intensive buildings, income-based weatherization.

Demand response programs that reduces demand for energy during peak periods:

Programs that modify the way customers use energy during busy times of day through voluntary actions or smart thermostat devices.

Renewable energy programs:

Electricity generated through large-scale wind turbines and other resources, as well as rooftop and ground solar panels spread throughout a community.

Battery storage programs:

Batteries can store excess renewable energy and discharge it later when the energy is needed, as well as provide back-up power.

We're working to ensure all customers benefit from the transition to clean electricity

As we work to create a new clean energy future and address the urgent need to limit climate change, we must do so in a way that ensures all of our customers, especially vulnerable and highly impacted communities that shoulder an outsized share of climate change burdens, are included in the transition to clean electricity.

Next steps

Dec. 17, 2021

PSE will finalize the CEIP and file it with the Washington Utilities and Transportation Commission (UTC).

2022

UTC will approve, deny or modify our CEIP.

PSE will begin implementing the CEIP, using customer benefit indicators to inform our program and investment decisions. We will continue to engage with customers and our advisory groups on CEIP implementation and progress updates.

2023

PSE will report our progress toward our targets and customer benefit indicators.

PSE will begin deploying new clean electricity programs.

We want to hear from you

We know we can't do this work alone and PSE is ready to listen. We're partnering with our customers, community organizations, and advisory groups to develop and implement the CEIP roadmap in a way that addresses our shared clean electricity goals and our customer needs. PSE is committed to a public participation process that strengthens community ties and creates solutions that reflect those values.

Here's how you can participate:

- Visit our online open house to learn more: pse.com/plan
- Submit a comment or question via email: ceip@pse.com
- Leave a voice message by calling: 425-818-2051

Comments on the draft CEIP are due **Nov. 12, 2021**

Поделитесь комментариями о первом Плане внедрения чистой | Осень 2021 г.

Присоединяйтесь к нам на пути к 100% чистой электроэнергии

План внедрения чистой энергии (CEIP) – это четырехлетний перспективный план, который будет определять инвестиции PSE в чистую электроэнергию на 2022-2025 годы. Это первый из многих планов, которые приведут нас к достижению нашей цели по обеспечению 100% чистой электроэнергии к 2045 году и помогут обеспечить преимущества от перехода на чистую электроэнергию для всех клиентов.

Этот План внедрения чистой энергии (CEIP) представляет собой четырёхлетний перспективный план, который:

Продвигает PSE вперед к почти 60% чистой электроэнергии к концу 2025 года, что является значительным шагом на пути к достижению наших целей в области чистой энергии на 2030 и 2045 годы.

Исключает уголь как источник электроэнергии из нашей сети к концу 2025 года.

Увеличивает объем наших экологически чистых источников электроэнергии, таких как крупномасштабные проекты в области ветроэнергетики и местные проекты по установке солнечных панелей на крышах и на земле, которые реализуются в партнерстве с частными домами и предприятиями.

Предоставляет клиентам больше возможностей для экономии энергии и снижения затрат за счет повышения энергоэффективности.

Задаёт новое направление для местных программ по установке солнечных панелей на крышах и на земле и по использованию аккумуляторов для солнечных батарей, а также стимулирует сокращение энергопотребления в периоды пиковой нагрузки.

Обеспечивает справедливое распределение преимуществ от перехода на чистую энергию и направляет нас на путь создания более инклюзивного безуглеродного будущего.

Справочная информация

План внедрения чистой энергии (CEIP) является важной частью наших долгосрочных усилий по планированию энергетики, направленных на устранение выбросов углерода при производстве электроэнергии для нашего региона и достижение целей Закона штата Вашингтон о преобразовании за счет чистой энергии (CETA), нового закона, который позволяет PSE ускоренными темпами двигаться вперед к поставкам чистой электроэнергии. Электричество поступает к вам в дом или на работу из разных источников. На сегодняшний день более 30 процентов поставок электроэнергии от компании PSE осуществляется из чистых источников - энергии ветра и воды, при получении которой не выделяются парниковые газы. Наша общая цель - достичь обеспечения 100% чистой электроэнергии к 2045 г.

2025 г.

Безуглеродное электричество

2030 г.

Углеродно-нейтральная
электрическая система

2045 г.

100% чистое электричество

В течение следующих четырех лет PSE увеличит объемы нашей чистой электроэнергии с 35% до 59%

Программы энергоэффективности, снижающие количество потребляемой нами энергии:

Такие программы, как скидки на энергоэффективные приборы, гранты на переоборудование и модернизацию энергоемких зданий, утепление на основе доходов.

Реагирование на спрос, снижающее потребность в энергии в периоды пиковой нагрузки:

Программы, которые изменяют способ использования энергии потребителями во время пиковой нагрузки в течение дня с помощью добровольных действий или умных термостатов.

Возобновляемая энергия:

через крупномасштабные ветровые и другие ресурсы, а также солнечные панели на крыше и на земле, распространяемые по всему сообществу.

Аккумуляторные батареи:

возможность накапливать излишки возобновляемой энергии и разряжать батареи позже, когда энергия потребуется, а также обеспечивать резервное питание.

Мы работаем над тем, чтобы обеспечить переход к чистой электроэнергии с учетом интересов всех потребителей.

Поскольку мы строим будущее с использованием чистой электроэнергии, решая проблему климатических изменений, мы должны спланировать переход таким образом, чтобы перевести на обеспечение чистым электричеством всех своих потребителей, в первую очередь, самые уязвимые категории населения, на которые приходится огромная доля выбросов, влияющих на изменение климата.

следующие шаги

17 декабря 2021 г.

PSE завершит разработку CEIP и отправит его в Комиссию по коммунальным предприятиям и транспорту штата Вашингтон.

2022 г.

UTC одобрит, отклонит или изменит наш CEIP.
PSE начнет реализацию CEIP, используя показатели преимуществ для клиентов для определения наших программных и инвестиционных решений. Мы продолжим взаимодействовать с клиентами и нашими консультативными группами по вопросам внедрения CEIP и обновлений о ходе работы.

2023 г.

Мы будем сообщать о нашем прогрессе в достижении наших целей и показателей преимуществ для клиентов.

PSE начнет внедрение новых программ чистой электроэнергии.

Мы хотим узнать Ваши мнения

Мы знаем, что не осилим эту задачу самостоятельно, поэтому компания PSE готова выслушать ваши предложения. Для разработки и внедрения плана мероприятий CEIP, отвечающего нашим общим целям в вопросах чистой энергии и потребностям наших потребителей, мы сотрудничаем с нашими потребителями, общественными организациями и консультационными группами.

Как принять участие:

- посетите наш онлайн-день открытых дверей: cleanenergyopenhouse.pse.com/ru
- Ждем ваши комментарии и вопросы по электронной почте: ceip@pse.com
- Можете оставить голосовое сообщение по номеру: 425-818-2051

Приглашаем всех оставить комментарии о CEIP до 12 ноября.

Comente sobre el primer Plan de Implementación de Energía Limpia de Puget Sound Energy | Otoño 2021

Súmese a nuestro camino hacia energía 100 % limpia

El Plan de Implementación de Energía Limpia (CEIP) es un mapa de pasos para cuatro años que guiará las inversiones de energía limpia de PSE durante los años 2022-2025. Es el primero de muchos planes que nos ayudarán a alcanzar nuestro objetivo de energía 100 % limpia para 2045 y a garantizar que todos los clientes se beneficien de la transición hacia la energía limpia.

Este Plan de Implementación de Energía Limpia (CEIP) es un mapa de cuatro años para cumplir los siguientes objetivos:

Avanzar a PSE hacia casi un 60 % de energía limpia para finales de 2025 y estar así muy bien encaminados para cumplir nuestros objetivos de energía limpia para 2030 y 2045.

Eliminar el carbón como fuente de electricidad de nuestra red para finales de 2025.

Acelerar nuestras fuentes de energía limpia como energía eólica a larga escala y paneles solares para techos, así como proyectos de energía solar en tierra en asociación con hogares y empresas.

Ofrecerles a los clientes más oportunidades de ahorrar energía y reducir sus costos mediante una mejora de la eficiencia energética.

Establecer un rumbo nuevo para los programas locales de energía solar en tierra y techos y de almacenamiento de baterías, así como incentivar la reducción de energía durante períodos pico.

Garantizar que los beneficios de la transición de energía limpia estén distribuidos equitativamente y ponernos en el camino correcto para construir un futuro más inclusivo y sin carbono.

Antecedentes

El Plan de Implementación de Energía Limpia (CEIP) es una parte importante de nuestra planificación energética a largo plazo para eliminar las emisiones de carbono del suministro eléctrico de nuestra región y alcanzar las metas de la Ley de Transformación de Energía Limpia (CETA) de Washington, una nueva ley que permite que PSE avance más y se mueva más rápidamente hacia entregar electricidad limpia.

La electricidad que da energía a su hogar o empresa viene de diversas fuentes. Hoy en día, más del 30% del suministro de energía eléctrica de PSE proviene de energías limpias como energía eólica e hidroeléctrica que no emiten gases de efecto invernadero. Nuestra meta compartida es alcanzar un 100% de electricidad limpia a 2045

Hitos de la electricidad

La Ley de Transformación de Energía Limpia (CETA) pone a Washington en un camino hacia la energía limpia, les requiere a las empresas de servicios que ofrezcan electricidad sin uso de carbón para finales de 2025, electricidad carbono neutral para 2030 y energía 100 % limpia para 2045.

2025

Electricidad sin carbón

2030

**Sistema eléctrico
neutro en carbono**

2045

Electricidad 100% limpia

Durante los próximos cuatro años, PSE aumentará su mezcla de energía limpia de 35% a 59%

Para alcanzar este objetivo, buscaremos acciones específicas mediante programas e inversiones en las siguientes áreas:

Programas de eficiencia energética que reduzcan la cantidad de energía que usamos:

Programas como descuentos para compra de electrodomésticos con eficiencia energética, subsidios para modificaciones y actualizaciones en edificios de alto consumo de energía, y climatización basada en

Respuesta a la demanda que reduzca la demanda de energía durante los períodos pico:

Programas que modifican la manera en la que los clientes usan la energía durante épocas muy activas mediante acciones voluntarias o

Energía renovable:

Mediante energía eólica a larga escala y otros recursos, así como paneles solares para tierra y techos en toda la comunidad.

Almacenamiento de baterías:

Depósito de exceso de energía renovable y descarga posterior cuando sea necesaria, así como producción de energía de respaldo.

Estamos trabajando para asegurar que todos los clientes se beneficien de la transición a electricidad limpia

A medida que trabajamos para crear un futuro de energía limpia y abordamos la necesidad urgente de limitar el cambio climático, debemos hacerlo de una manera que garantice que todos nuestros clientes, especialmente las comunidades de primera línea que llevan una participación descomunal de las cargas de cambio climático, sean incluidas y se beneficien en la transición a la electricidad limpia.

Próximos pasos

17 de diciembre de 2021

PSE completará el plan CEIP y lo enviará en la Comisión de Servicios Públicos y Transporte (UTC) de Washington

2022

UTC aprobará, rechazará o modificará el CEIP.
PSE comenzará la implementación del CEIP con indicadores de beneficios para los clientes para orientarnos en la decisiones relacionadas con el programa y las inversiones. Continuaremos involucrándonos con los clientes y los grupos asesores en las actualizaciones de implementación y avance del CEIP.

2023

Informaremos nuestro avance hacia los objetivos e indicadores de beneficios al cliente.

PSE comenzará a implementar nuevos programas de electricidad limpia.

Queremos escuchar sus comentarios

Sabemos que no podemos lograrlo solos y PSE está lista para escuchar. Nos estamos asociando con nuestros clientes, organizaciones comunitarias y grupos asesores para desarrollar e implementar el cronograma de CEIP de una manera que aborde nuestros objetivos de electricidad limpia compartidos y las necesidades de nuestros clientes.

Puede participar de la siguiente manera:

- Visite nuestro Evento de puertas abiertas en línea: pse.com/planesp
- Enviar un comentario o pregunta por correo electrónico: ceip@pse.com
- Dejar un mensaje de voz llamando a: 425-818-2051

Recibiremos comentarios sobre el CEIP hasta el 12 de noviembre

Hãy cho ý kiến về Kế hoạch Triển khai Năng lượng Sạch đầu tiên của Puget Sound Energy | Mùa thu năm 2021

Hãy đồng hành cùng chúng tôi trên con đường tiến tới điện sạch

Kế Hoạch Triển Khai Năng Lượng Sạch (Clean Energy Implementation Plan, CEIP) là lộ trình bốn năm định hướng các khoản đầu tư vào điện sạch của PSE trong những năm 2022-2025. Đây là kế hoạch đầu tiên trong nhiều kế hoạch đưa chúng tôi đến với mục tiêu 100% điện sạch vào năm 2045 và giúp đảm bảo tất cả khách hàng đều được hưởng lợi từ việc chuyển đổi sang sử dụng nguồn điện sạch.

Kế hoạch Triển khai Năng lượng Sạch (CEIP) là một lộ trình kéo dài bốn năm:

Đưa PSE tiến tới mục tiêu 60% điện sạch vào cuối năm 2025 – trên con đường đạt đến các mục tiêu về năng lượng sạch của chúng tôi cho năm 2030 và 2045.

Ngừng sử dụng nguồn điện từ than đá cho lưới điện của chúng ta vào cuối năm 2025.

Tăng cường các nguồn điện sạch - như năng lượng gió quy mô lớn và các dự án năng lượng mặt trời trên mái nhà và mặt đất tại địa phương hợp tác với các hộ gia đình và doanh nghiệp.

Mang đến cho khách hàng thêm nhiều cơ hội để tiết kiệm năng lượng và giảm chi phí thông qua việc nâng cao hiệu quả sử dụng năng lượng.

Đặt ra hướng đi mới cho các chương trình lưu trữ pin và năng lượng mặt trời trên mái nhà và mặt đất tại địa phương, cũng như các biện pháp khuyến khích giảm thiểu sử dụng năng lượng trong các khoảng thời gian cao điểm.

Đảm bảo các lợi ích của quá trình chuyển đổi năng lượng sạch được phân bổ bình đẳng và đưa chúng ta đến với con đường xây dựng một tương lai không có carbon, toàn diện hơn.

Khái quát

Kế hoạch Triển khai Năng lượng Sạch (CEIP) là một phần quan trọng trong nỗ lực quy hoạch năng lượng dài hạn nhằm loại bỏ phát thải các-bon khỏi nguồn cung cấp điện của khu vực và đáp ứng các mục tiêu của Đạo luật Chuyển đổi Năng lượng Sạch (CETA) của Washington, một luật mới cho phép PSE tiến xa hơn và nhanh hơn trong việc cung cấp điện sạch. Điện cung cấp cho nhà ở hoặc cơ sở kinh doanh của quý vị đến từ nhiều nguồn khác nhau. Ngày nay, hơn 30% nguồn cung cấp năng lượng điện của PSE đến từ các nguồn sạch như gió và thủy điện không phát thải khí nhà kính. Mục tiêu chung của chúng tôi là đạt 100% điện sạch đến năm 2045.

Các mốc triển khai điện

Đạo luật Chuyển đổi Năng lượng Sạch đặt Washington trên con đường phát triển điện sạch, yêu cầu các cơ sở cung cấp điện cho tới cuối năm 2025 sẽ ngừng sử dụng than đá, đạt mục tiêu điện trung hòa cacbon vào năm 2030 và 100% điện sạch vào năm 2045.

Năm 2025
Điện không than

Năm 2030
Hệ thống điện trung tính carbon

2045
100% điện sạch

Trong bốn năm tới, PSE sẽ tăng tỷ lệ điện sạch từ 35% lên 59%

Để đạt được mục tiêu này, chúng tôi sẽ nỗ lực thực hiện một số hành động cụ thể thông qua các chương trình và các mục đầu tư vào các lĩnh vực sau:

Các chương trình tiết kiệm năng lượng có thể giảm lượng năng lượng chúng ta sử dụng:

Các chương trình này bao gồm giảm giá các thiết bị tiết kiệm điện năng, tài trợ cho việc trang bị thêm và nâng cấp các tòa nhà sử dụng nhiều năng lượng, cải tạo nhà để chống chọi với thời tiết dựa trên thu nhập.

Động thái đáp ứng nhu cầu giúp giảm nhu cầu năng lượng trong thời gian cao điểm:

Các chương trình làm thay đổi thói quen sử dụng năng lượng của khách hàng vào các giờ cao điểm trong ngày một cách tự nguyện hoặc thông qua thiết bị điều nhiệt thông minh.

Năng lượng tái tạo:

Điện gió quy mô lớn và các nguồn tài nguyên khác, cũng như pin mặt trời lắp đặt trên mái nhà và mặt đất rộng rãi trong cộng đồng.

Thiết bị dự trữ pin:

Có thể dự trữ năng lượng tái tạo còn thừa và lấy ra sử dụng khi cần năng lượng đồng thời cung cấp năng lượng dự phòng.

Chúng tôi đang nỗ lực để đảm bảo tất cả khách hàng đều được hưởng lợi từ việc chuyển đổi sang điện sạch.

Khi nỗ lực tạo ra một tương lai năng lượng sạch mới và đáp ứng nhu cầu cấp thiết trong việc hạn chế biến đổi khí hậu, chúng tôi phải đảm bảo rằng tất cả khách hàng, đặc biệt là những cộng đồng tuyến đầu gánh vác một phần lớn gánh nặng của biến đổi khí hậu, đều được hưởng lợi từ việc chuyển đổi sang điện sạch.

các bước tiếp theo

Ngày 17 tháng 12 năm 2021

PSE sẽ hoàn thiện CEIP và nộp lên Ủy ban Tiện ích và Vận tải Washington

2022

UTC sẽ phê duyệt, từ chối hoặc sửa đổi CEIP.

PSE sẽ bắt đầu triển khai CEIP, sử dụng các chỉ số lợi ích khách hàng để đưa ra các quyết định đầu tư và thực hiện chương trình của mình. Chúng tôi sẽ tiếp tục trao đổi với khách hàng và các nhóm tư vấn về việc triển khai CEIP và cập nhật tiến độ.

2023

Chúng tôi sẽ báo cáo tiến độ thực hiện các mục tiêu và chỉ số lợi ích khách hàng.

PSE sẽ bắt đầu triển khai các chương trình điện sạch mới.

Chúng tôi muốn nghe từ quý vị

Chúng tôi biết rằng chúng tôi không thể thực hiện công việc này một mình và PSE sẵn sàng lắng nghe. Chúng tôi đang hợp tác với khách hàng, tổ chức cộng đồng và các nhóm tư vấn để phát triển và thực hiện lộ trình CEIP theo cách giải quyết các mục tiêu chung về

Đây là cách thức quý vị có thể tham gia:

- Truy cập Buổi ra mắt trực tuyến chúng tôi: cleanenergyopenhouse.pse.com/vi
- Gửi góp ý hoặc câu hỏi qua email: ceip@pse.com
- Để lại tin nhắn thoại bằng cách gọi: 425-818-2051

Chúng tôi hoan nghênh các ý kiến về CEIP đến hết ngày 12 tháng 1.

關於普吉特海灣能源公司 Puget Sound Energy 首個清潔能源實施計劃的意見 | 2021 年秋季

同我們一起踏上 100% 清潔電力之路

清潔能源實施計畫 (CEIP) 是為期四年的發展藍圖，成為引領 PSE 於 2022-2025 年進行清潔電力投資的準繩。這是多項計劃中的首項計劃，這項計劃將使我們在 2045 年之前實現 100% 清潔電力的目標並有助於確保所有客戶從清潔電力轉型中受益

清潔能源實施計畫 (CEIP) 是項為期四年的發展藍圖：

 <p>推動 PSE 在 2025 年底前實現供應近 60% 的清潔電力，同時邁向實現 2030 年和 2045 年清潔能源目標之旅</p>	 <p>2025 年底前，我們的電網將不再使用煤炭作電力來源</p>
 <p>增加我們的清潔電力能源，比如與家庭和企業合作的大規模風能發電項目以及當地屋頂和地面太陽能發電項目</p>	 <p>透過提升客戶的能源效率，使客戶更有機會節約能源、降低成本</p>
 <p>當地屋頂和地面太陽能和蓄電池專案設定新目標，並提供激勵措施，以減少高峯期的能源消耗</p>	 <p>推動 PSE 在 2025 年底前實現供應近 60% 的清潔電力，同時邁向實現 2030 年和 2045 年清潔能源目標之旅</p>

背景

我們努力消除區域內供電的排碳，並響應華盛頓的清潔能源轉型法 (CETA) 此一促使 PSE 朝提供清潔電力進一步加快腳步的新法，而在為了符合該法的目標進行的長期能源規劃之中，清潔能源實施計畫 (CEIP) 是相當重要的一環。為住宅或公司供電的電力來源有很多種。目前，PSE 供應的電能之中逾 30% 出自乾淨來源，例如不會排放溫室氣體的風力與水力發電。我們共同的目標是在 2045 年前達到 100% 清潔電力

清潔電力里程碑

清潔能源轉型法使華盛頓州走上了清潔電力的道路，要求公用事業在 2025 年之前提供無燃煤電力，2030 年之前實現電力碳中和並在 2045 年之前提供 100% 清潔電力

2025
無煤電

2030 年
碳中和電力系統

2045
100% 清潔電力

在未來四年，PSE 會將綜合清潔電力由 35% 提高至 59%

☑實現這一目標，我們將透過以下領域的專案和投資執行專項行動

能源效率專案，降低我們所消耗的能源量：

譬如對節能設備予以退稅，資助能源密集型建築的改造升級、根據收入進行房屋節能改造等專案

譬如對節能設備予以退稅，資助能源密集：

透過自發行動或智能溫控設備改變客戶在高峰期使用能源方式的專案

可再生資源：

利用大規模風能和其他資源，以及在整個社區遍佈屋頂和地面太陽能電池板

蓄電池：

可儲存多餘的可再生能源，並在需要能源時發電，還可提供備用電源

我們力求確保所有客戶皆因轉型為清潔電力而受益

我們為了創造嶄新清潔能源的未來，並為了防止迫在眉睫的氣候變遷問題而努力，在此同時務求在轉型至清潔電力時考慮到所有客戶，尤其是為了氣候變遷而負擔過重的第一線社區

後續步驟

2021 年 12 月 17 日

PSE 將定案 CEIP 並向公用事業和運輸委員會提交

2022

UTC 將核准、駁回或修改我們的 CEIP。

PSE 將開始實施 CEIP，利用客戶效益指標報告我們的專案和投資決策。我們將繼續與客戶和我們的諮詢團體溝通 CEIP 實施和進展的最新情況

2023

我們將對實現目標和客戶效益指標的進展進行匯報。

PSE 將開始部署新的清潔電力計劃。

我們希望傾聽您的意見

我們知道自己無法獨力完成這項工作，而 PSE 準備好聽取意見了。我們將與客戶、社群組織和諮詢團體合作，將我們的共同目標和客戶需求列入考量，擬定及實施 CEIP 發展藍圖。

以下是您可以參與其中的方式：

- 去我們的線上公眾意見收集了解更多：
cleanenergyopenhouse.pse.com/zh-tw
- 過電子郵件提交留言或疑問：ceip@pse.com
- 來電留下語音訊息：425-818-2051

歡迎大家在11月12日前發表意見

Puget Sound Energy की प्रथम स्वच्छ ऊर्जा कार्यान्वयन योजना पर टपिपणी करें | फॉल 2021

100% स्वच्छ बजिली के मार्ग पर हमारे साथ जुड़ें

स्वच्छ ऊर्जा कार्यान्वयन योजना (CEIP) चार वर्षों की लक्ष्यगत योजना है जो वर्ष 2022-2025 के लिए PSE के स्वच्छ बजिली नविशों का मार्गदर्शन करेगी। यह कई योजनाओं में से पहली है जो हमें 2045 तक 100% स्वच्छ बजिली के हमारे लक्ष्य तक पहुंचाएगी और सभी ग्राहकों को स्वच्छ बजिली परिवर्तन का लाभ प्राप्त करने में मदद करेगी।

यह स्वच्छ ऊर्जा कार्यान्वयन योजना (CEIP) चार वर्षों की

2030 और 2045 के लिए हमारे स्वच्छ ऊर्जा के लक्ष्यों को पूरा करने के मार्ग पर होते हुए 2025 के अंत तक PSE को लगभग 60 प्रतिशत स्वच्छ बजिली की तरफ ले जाता है।

2025 के अंत तक हमारे ग्रीड से बजिली के स्रोत के रूप में कोयले को हटा देता है।

हमारे स्वच्छ बजिली के संसाधनों को बढ़ावा देता है - जैसे बड़े पैमाने की पवन ऊर्जा और स्थानीय रूफटॉप और जमीनी सौर ऊर्जा परियोजनाएं जो घरों और व्यवसायों के साथ साझेदारी करती है।

ग्राहकों की ऊर्जा दक्षता में सुधार के जरूरी ऊर्जा बचाने और उनकी लागतों को कम करने के उन्हे अधिक अवसर देता है।

स्थानीय रूफटॉप और जमीनी सोलर और बैटरी स्टोरेज कार्यक्रमों के लिए एक नई दृष्टि निर्धारित करता है, साथ ही पीक अवधियों के दौरान ऊर्जा के उपयोग को कम करने के लिए प्रोत्साहन देता है।

सुनिश्चित करें कि स्वच्छ ऊर्जा परिवर्तन के लाभ समान रूप से वितरित किए जाते हैं और हमें अधिक समावेशी, कार्बन-मुक्त भवित्य के निर्माण की राह पर ले जाते हैं।

पृष्ठभूमि

स्वच्छ ऊर्जा कार्यान्वयन योजना (CEIP) हमारे क्षेत्र की बजिली आपूर्ति से कार्बन उत्सर्जन को खत्म करने के लिए दीर्घकालिक ऊर्जा योजना के प्रयासों का एक महत्वपूर्ण हिस्सा है और यह वाशिंगटन के स्वच्छ ऊर्जा परिवर्तन अधिनियम (CETA) के लक्ष्यों को पूरा करती है, जोकि एक नया कानून है जो स्वच्छ बजिली की आपूर्तिकरने के लिए PSE को और तेजी से आगे बढ़ने में सक्षम बनाता है।

आपके घर या व्यवसाय को पॉवर देने वाली बजिली कई प्रकार के स्रोतों से प्राप्त होती है। वर्तमान में, PSE की लगभग 30 प्रतिशत बजिली आपूर्ति पवन और पन बजिली जैसे स्वच्छ स्रोतों से आती है जो ग्रीनहाउस गैस उत्सर्जन नहीं करते हैं। हमारा साझा लक्ष्य 2045 तक 100 प्रतिशत स्वच्छ बजिली तक पहुंचना है।

स्वच्छ बजिली के मील के पत्थर

स्वच्छ ऊर्जा परिवर्तन अधिनियम वाशिंगटन को स्वच्छ बजिली के मार्ग पर ले जाता है, जिसके लिए उपयोगिताओं को 2025 के अंत तक कोयला-मुक्त बजिली, 2030 तक कार्बन-न्यूट्रल बजिली, और 2045 तक 100% स्वच्छ बजिली प्रदान करने की आवश्यकता होती है।

2025

कोयले से मुक्त बजिली

2030

कार्बन-तटस्थ वदियुत प्रणाली

2045

100% स्वच्छ बजिली

अगले चार वर्षों में, PSE हमारे स्वच्छ बजिली के मशिरण को 35% से बढ़ाकर 59% कर देगा।

इस लक्ष्य को हासिल करने के लिए, हम नमिनलखिति क्षेत्रों में कार्यक्रमों और नविशों के जरिए वशिष कार्रवाई करेंगे:

ऊर्जा दक्षता कार्यक्रम जो हमारे द्वारा उपयोग की जाने वाली ऊर्जा की मात्रा को कम करते हैं:

ऊर्जा कुशल उपकरणों के लिए छूट, ऊर्जा-गहन इमारतों में रेट्रोफिट्स और उन्नयन के लिए अनुदान, आय-आधारित मौसमीकरण जैसे कार्यक्रम

मांग प्रतिक्रिया जो पीक अवधियों के दौरान ऊर्जा की मांग को कम करती है:

ऐसे कार्यक्रम जो स्वैच्छिक कार्यों या स्मार्ट थर्मोस्टेट उपकरणों के जरिए दिन के व्यस्त समयों में ग्राहकों द्वारा ऊर्जा का उपयोग करने के तरीके को बदलते हैं।

नवीकरणीय ऊर्जा:

बड़े पैमाने के वायु और अन्य संसाधनों के जरिए, साथ ही छत और जमीन के सोलर पैनल पूरे समुदाय में फैले हुए हैं

बैटरी भंडारण:

अतिरिक्त नवीकरणीय ऊर्जा को भंडार कर सकते हैं और बाद में ऊर्जा की आवश्यकता होने पर, साथ ही बैक-अप पावर प्रदान करते हैं।

हम सभी ग्राहकों को स्वच्छ बजिली की ट्रांजिशन से लाभ उठाना सुनिश्चित करने के लिए काम कर रहे हैं।

जैसा कि हम एक नई स्वच्छ ऊर्जा भवषिय बनाने के लिए काम करते हैं और हम जलवायु परिवर्तन को सीमित करने की तत्काल आवश्यकता को संबोधित करते हैं, हमें कुछ ऐसा करना चाहिए जो हमारे सभी ग्राहकों के लिए, वशिष रूप से अग्रिम पंक्तिका समुदाय जो जलवायु परिवर्तन के बोझ का एक बड़ा हिस्सा उठाए बैठे हैं, बजिली ट्रांजिशन में शामिल होना सुनिश्चित करें।

अगले कदम

दिसंबर 17, 2021

PSE CEIP को अंतिम रूप देगा और इसे वाशिंगटन उपयोगिताएं और परिवहन कमीशन के पास दायर करेगा

2022

UTC हमारे CEIP को प्रमाणित, अस्वीकार या संशोधित करेगा।

PSE हमारे कार्यक्रम और नविश नर्णियों को सूचित करने के लिए ग्राहक लाभ संकेतकों का उपयोग करते हुए, CEIP को लागू करना शुरू कर देगा। हम CEIP कार्यान्वयन और प्रगति अपडेट्स पर ग्राहकों और हमारे सलाहकार समूहों के साथ जुड़े रहेंगे।

2023

हम अपने लक्ष्यों और ग्राहक लाभ संकेतकों के प्रति अपनी प्रगति के बारे में सूचित करेंगे।

PSE नए स्वच्छ बजिली कार्यक्रमों को लागू करना शुरू करेगा।

हम आपसे सुनना चाहते हैं

हम जानते हैं कि यह काम हम अकेले नहीं कर सकते हैं और PSE सुनने के लिए तैयार है। हम अपने ग्राहकों, सामुदायिक संगठनों और सलाहकार समूहों के साथ भागीदारी कर रहे हैं ताकि हमारे साझा स्वच्छ ऊर्जा लक्ष्यों और हमारे ग्राहक की जरूरतों को पूरा करने वाले CEIP रोडमैप को बनाया और कार्यान्वित किया जा सके।

यहाँ है की आप कैसे भाग ले सकते हैं:

- हमारे ऑनलाइन ओपन हाउस पर जाएँ: cleanenergyopenhouse.pse.com/hi
- ईमेल के माध्यम से कोई टिप्पणी या प्रश्न भेजें: ceip@pse.com
- यहाँ कॉल करके ध्वनि संदेश छोड़ें: 425-818-2051

हम 12 नवंबर तक इस ऑनलाइन ओपन हाउस का उपयोग करते हुए CEIP पर टिप्पणियों को स्वीकार करते हैं।

PSE.com

October 23, 2021

[Salutation]

PSE's efforts to address climate change through clean electricity have reached an important milestone. We respect your unique perspective as an independent sovereign whose citizens we serve and we know your input will be valuable to this transition process. I would like to brief your Tribal Council about our new, four-year clean energy implementation plan, if that is helpful to you. I would also like to collect feedback and answer any questions you and your council may have. I will be reaching out to your staff, as well, to offer briefings, answer questions, and ask for feedback. Lastly, I am hoping to present to the Energy Committee at the next ATNI conference to seek feedback there also.

Background

Earlier this year, PSE announced its aspirational goal of becoming a Beyond Net Zero Carbon energy company by 2045. We're aiming to not only slow climate change but to help the families and businesses we serve to reach zero carbon emissions as well. There are different components that will help get us there, including Washington state's Clean Energy Transformation Act (CETA), a groundbreaking law that sets targets for our electric supply. CETA requires all electric utilities to transition to 100% clean electricity by 2045.

Moving Forward

To help us reach our clean electricity goals, we're developing our first Clean Energy Implementation Plan (CEIP), a four-year roadmap that will guide our clean electricity programs, actions and investments for 2022-2025. We're seeking feedback on the draft plan in October and November so we can incorporate comments in the final plan by Dec. 17, 2021.

The plan outlines our path forward for the next four years, which includes plans for more large-scale wind energy and new programs for energy efficiency, distributed solar and battery programs for homes and businesses.

We will continue to partner with our customers, our new Equity Advisory Group, and other stakeholders to inform our work on and equitably distribute the benefits of clean electricity to our customers through this new plan.

We'd like to brief you about our CEIP efforts and draft plan, collect feedback, and understand your communication preferences moving forward.

Scheduling a briefing as soon as possible will allow us to incorporate your feedback before the Dec. 17, 2021 deadline given to us by the Washington Utilities and Transportation Commission (UTC). This CEIP is the first of many on our way to 100% clean electricity by 2045, and we will continue to provide opportunities for engagement.

I will follow up by phone to schedule a briefing about the CEIP and our clean energy work.

For additional information, we welcome you to visit cleanenergyplan.pse.com and read our [fact sheet](#).

Thank you!

Kelsey Hulse, MBA (She/Her)
