Dear UTC Commissioners,

As a concerned Washington resident, I urge you not to acknowledge any proposal that does not address a retirement plan for Puget Sound Energy's dirty, dangerous, and increasingly expensive coal plant. You said it yourselves: "To embark on investments [in Colstrip] with so much uncertainty could be harmful to PSE, its ratepayers and the broader public interest."

We have a choice to make--dump hundreds of millions of dollars of our hard earned money into an outdated, out-of-state coal plant or invest that money right here in Washington and throughout the region building energy efficiency and renewable energy solutions that will create thousands of well-paying jobs, improve public health, and significantly cut carbon pollution.

All across the country, communities and utilities have declared that coal is too costly and risky for ratepayers, including Portland General Electric and TransAlta here in the Northwest. More than 200 coal plants are slated to retire. It is time to develop a plan to transition off coal and to invest in clean energy for the benefit of ratepayers, our local economy, and our children's future.

Sincerely,

Jessica Koski, Associate Organizing Representative, Sierra Club, and the attached list of WA residents (please see attached list)

--

Jessica Koski, Ph.D.
Associate Organizing Representative | Sierra Club's Beyond Coal Campaign
