Subject: Gasco OU FS PRGs - Riverbank COC/PRG Tables 5a and 5b

Wes,

Please find attached the following Gasco OU Feasibility Study PRG Tables that were discussed during the riverbank PRG meeting held on September 7, 2023, for review.

1. Ecological PRG Tables 5a - Gasco OU Riverbank Seep COCs and PRGs – Source Control
2. Ecological PRG Tables 5b - Gasco OU Ecological Riverbank Seep COCs and PRGs – Hot Spot Evaluations

We understand that DEQ will review and provide updates to the Wildlife Water Ingestion PRGs in Table 5b as DEQ has noted discrepancies in the RBCs presented in Table 1b (Risk Based Concentrations for Wildlife Ingestion of Surface Water) of DEQ's 2020 Conducting Ecological Risk Assessment Internal Management Directive Appendices.

With the submittal of these two tables, Anchor QEA has provided DEQ with the complete set of proposed PRGs for the ecological COCs identified in the Gasco OU risk assessments approved by DEQ. We look forward to reviewing and resolving any comments on these proposed ecological COC/PRG tables.

Thanks!

Taku Fuji, Ph.D. | he/him
