Attachment 1-Restating of the Reporting Requirements

(Page 94 of WUTC Docket No. TO-011472, 20th Supplemental Order, 9/27/02)

XIII. Reporting Requirements

“It is essential that Olympic keep the Commission informed of important economic events. Until relieved of the obligation by Commission order or by letter from the Commission’s Executive Secretary, Olympic must report on January 15, 2003, and no later than the fifteenth day of each successive Calendar quarter upon the following matters:

1. Status and level of any pressure restrictions imposed by regulators, and the actual average maximum operating pressure achieved by operating by month.
2. Total throughput, including the three months prior to the month of the report, with actual data.
3. Status of Bayview: Whether it is being used as a batching facility and, if so, the additional throughput gained through its use, by month.

In addition, the company must report to the Executive secretary of the Commission, under this docket number, no later than the close of the second business day following the event, any of the following that occur and the date on which they occur.

1. Removal, imposition, reduction, or increase of pressure restrictions by regulatory authority or independent company action.
2. First operations at full pressure for any portions of the system now subject to an 80% pressure restriction.
3. The beginning of unrestricted systemwide operations at full pressure.
4. Placement of Bayview into operation for its intended purposes.
5. Change in equity ratio.”

Attachment 2—Response to Reporting Requirements

Pursuant to the WUTC Docket No. TO-011472, 20th Supplemental Order, 9/27/02, Olympic Pipeline Company hereby submits the requested information to the WUTC.

1. "...status and level of any pressure restrictions imposed by regulators, and the actual average maximum operating pressure achieved by operating by month."

As the pressure varies along the pipeline with the maximum at the pump stations, Olympic is now reporting the average discharge pressure of the pump stations. Note, the pressure readings are only collected at specific points in time and the average is based on these readings.

a). Status and level of pressure restrictions: --No change from 80% restriction imposed by Federal regulators.

b). Actual Average Operating Pressure: (psig)
