This year Avista shifted our company / contractor Aldyl A Training to be part of the Annual OQ Refresher Training. The training materials submitted to the WUTC in 2011 and used in 2011 have been transferred (without modification) to a Computer-Based Training (CBT) format and are being completed by Avista employees and contractors working in Washington in the April - June 2012 timeframe.

Should you have any additional questions regarding these training sessions, please feel free to contact me.

Respectfully yours,
