Dear Mr. King:

Please find attached tariff page revisions for item 30 of the above noted tariff areas. This proposed change in the tariffs reflects change in the verbiage to item 30, Limitations of Service. The attached adjusted tariff pages have been updated to reflect recently approved language and notations to identify changes in the tariffs. We have received technical assistance from the UTC staff and are refilling, however, we are still asking that this change become effective on April 11, 2014. Pursuant to commission order 03 we believe this does not require less than statutory notice. Additionally, please note that tariff number 8 is currently under suspension subject to refund.

If you have any questions please don't hesitate to contact me.

Sincerely,
