**RE: Docket UE-210191 Informational Filing  
PSE Q3 2024 Transportation Electrification Detailed Report**

Dear Executive Director and Secretary Killip:

In connection with Docket UE-210191, Puget Sound Energy (“PSE”) hereby submits its second Transportation Electrification Report as of June 30, 2024. PSE made the commitment in PSE’s Addendum to its 2021 Transportation Electrification Plan (“TEP”) dated July 14, 2021, under the same docket (“Addendum”). The Addendum outlines that PSE will release, through an informational filing with the Washington Utilities and Transportation Commission (“UTC” or “Commission”), periodic reports to TEP interested parties. These periodic reports focus on major program progress or changes, expenses, and revenues. The first PSE TEP Update Summary Report for Q4 2022 report was provided on December 30, 2022, in this docket.

This PSE Q3 2024 Transportation Electrification Detailed Report covers activities between January 1, 2023, and June 30, 2024, and describes product activities and progress, utilization summaries, lessons learned, expenses to date, and relevant results of societal cost test(s).

PSE’s Q3 2024 Transportation Electrification Detailed Report includes updates for the following areas:

- Progress of Phase I electric vehicle products and services, which were approved by the Commission in spring of 2022;
- Progress of Phase II electric vehicle products and services, which were approved by the Commission in summer of 2023;
- Analysis related to the utilization and placement of Electric Vehicle Supply Equipment installed during the reporting period;
- Transportation electrification products and services capital and operating costs.

Jeff Killip, Executive Director and Secretary
