Subject: Thank you for protecting WA's Clean Energy Future
Date: Friday, December 6, 2019 7:47:44 AM

Dear Washington UTC,

I grew up and live in Washington because of it's green environment and clean air. I feel our political electives should be doing everything in their power to keep it that way or they should be de-seated/voted out for not doing their job to protect our communities. Washington polluters must be held accountable and build strong relationships with decision-makers who will protect our environment and the health of our communities.

There MUST be transparent planning processes that allow for public engagement.

Puget Sound Energy and Avista must STOP trying avoid important planning processes. NO profit lust just so you can build more fossil fuel infrastructure.

Expanding fossil fuel infrastructure now would threaten our ambitious clean energy goals but also endanger our communities and our climate

Show the people of our beautiful state that you have integrity, dignity, sensitivity, sensibility and are honorable.

Show us you care for our future and not just of the profits of your corporations.

Thank you!

This is a comment for Docket # UE 190698.

As a Washington State ratepayer, I am strongly in support of effective public accountability and engagement for investor-owned utilities. I am excited for Washington's Clean Energy Transformation Act (CETA) to take effect, and appreciate your role in making sure that the implementation of this law delivers on its intended vision of a state powered by 100% clean energy.

With that in mind, I would like to make a comment on the importance of public participation in energy planning. Integrated Resource Plans have been a powerful tool for public input here in Washington State, and it has allowed customers to advocate for clean, transparent, and equitable energy decisions. These planning sessions are one of the few oversight and watchdog opportunities we get. Please keep the requirement that they happen every two years rather than every four, as proposed.

As a ratepayer and concerned resident, I thank you for representing my interests and making sure utilities are accountable to the public.

Sincerely,

Linda Jarvis
