All Small and Medium Business Products

Below is a comprehensive overview of our products and services. You can learn more about any product on its individual page.

- [Voice Services](#)
- [Internet Access](#)
- [Voice & Internet Solutions](#)
- [Security Solutions](#)
- [Conferencing Solutions](#)
- [Wireless Data Services](#)

Voice Services

MCI Advantage – voice and Internet over MCI's IP network

Everything you need to combine your voice and Internet onto one network. Simple billing, simple service because you have one provider behind your entire network solution.

• [Learn more](#)

CONSIDER THIS IF:
You want a complete voice over IP solution for your business without multiple vendors.

MCI Business Complete – local and long distance calling on one bill

A business line solution for smaller businesses, with or without unlimited long distance.

• [Learn More](#)

CONSIDER THIS IF:
You run a small business and want the convenience of one monthly bill and one provider for all your calling needs.

MCI Business Asset – low per-minute long distance rates with an affordable monthly minimum

Long distance calling as low as 4¢ a minute with no monthly plan fee and a low \$20 monthly minimum.

CONSIDER THIS IF:
Your business spends more than \$20 a month on long distance.

DJW-3

[Learn more](#)

MCI Business Premier – affordable per-minute long distance rates with a lower monthly minimum

Long distance calling as low as 6¢ a minute with no monthly plan fee and a low \$10 monthly minimum.

[Learn more](#)

CONSIDER THIS IF:
Your business spends more than \$10 a month on long distance.

[Back to Top](#)

Internet Access

Dedicated Internet Access – high speed access for high performance needs

A suite of dedicated T1 Internet access options to fit your size, needs and budget.

[Learn more](#)

CONSIDER THIS IF:
You need a robust and flexible solution for Internet access and protection.

DSL Internet Access – flexible solutions for high speed access

High speed access to the Internet and for other data transmission needs, tailored to fit your business.

[Learn more](#)

CONSIDER THIS IF:
You want high speed access using traditional copper cables.

Dial-Up Internet Access – convenient solution for office, mobile or remote users

Make use of one access solution whether you're in the office, working at a remote location, or mobile.

[Learn more](#)

CONSIDER THIS IF:
The flexibility of your access is more important than speed.

[⊗ Back to Top](#)

Voice & Internet Solutions

MCI Advantage – voice and Internet over MCI's IP network

Everything you need to combine your voice and Internet onto one network. Simple billing, simple service because you have one provider behind your entire network solution.

[⊗ Learn more](#)

CONSIDER THIS IF:
You want a complete voice over IP solution for your business without multiple vendors.

Flex Service T1 – a flexible, dedicated single-network voice and data solution

The solution that grows with and adapts to your business. A single point of access for your voice, Internet, PIP, and Frame Relay application needs.

[⊗ Learn more](#)

CONSIDER THIS IF:
You need a simplified integrated communications solution for a smaller business with a minimum of eight trunks.

Full Service T1 – consolidate your voice and data on a single T1

Combine your local, long distance and data on a single T1 line. 24 multi-use channels that can be allocated to fit your needs – local, combined with long distance, Internet, PIP, or a combination of services.

[⊗ Learn more](#)

CONSIDER THIS IF:
You need an integrated, dedicated communications solution for a business with 12 to 24 trunks.

[⊗ Back to Top](#)

Security Solutions

Firewall Protection – a barrier against unauthorized access

Choose the solution that fits your needs and expertise: self-managed or with monitoring from MCI.

CONSIDER THIS IF:
You want to protect your network and data from

DJW-3

[Learn more](#) intrusion and damage.

Authentication Services – secure remote access to your network
Authentication that provides security far beyond simple static passwords.
[Learn More](#) **CONSIDER THIS IF:**
Your business requires network access from outside your firewall.

Anti-Virus & Anti-Spam Protection – virus and spam detection and blockers
Detect and control e-mail and attachments before they cost your business time and money.
[Learn more](#) **CONSIDER THIS IF:**
You want to block viruses and spam before they reach your network.

[Back to Top](#)

Conferencing Solutions

Web Conferencing – present, share, and collaborate right from your PC
Make conference calls more productive with dynamic presentations or group collaboration in real time. All you need is a phone, a PC, and an Internet connection.
[Learn More](#) **CONSIDER THIS IF:**
You need a greater level of engagement or collaboration with your audience from remote locations.

Audio Conferencing – all you need is a touch-tone phone to connect
A range of secure, feature-rich phone conferencing solutions. Connect any time you have access to a phone.
[Learn More](#) **CONSIDER THIS IF:**
You need to work with a group, but can't be in the same place.

[Back to Top](#)

Wireless Data Services

SkyTel FleetHawk - GPS fleet tracking and management system

Complete and easy to use, FleetHawk collects vehicle information and delivers it to your Internet browser. GPS tracking, vehicle monitoring & control, geofencing, alerts and more.

[Learn more](#)

CONSIDER THIS IF:
You need to maintain better control over your fleet of vehicles.

SkyTel 2Way Messaging – Fast interactive communication

Write, send, receive, and respond to text and e-mail messages. Ensured messaging stores messages when you're out of coverage and redelivers them automatically.

[Learn more](#)

CONSIDER THIS IF:
You're looking for a super-efficient work-group communication solution.

SkyTel 1Way Paging – Simple Notifications to Complete Messages

The original wireless communication is sometimes still the best. Choose full text or numeric paging.

[Learn more](#)

CONSIDER THIS IF:
You need a low-cost solution for keeping in touch.

BlackBerry by SkyTel – Corporate e-mail in the palm of your hand

When your business depends on e-mail, SkyTel lets you take it on the road. Featuring nationwide coverage without roaming and added benefits not offered elsewhere.

[Learn more](#)

CONSIDER THIS IF:
Your road warriors need access to their e-mail at all times.
