Subject: Comments regarding UE-160918 and UG-160919
Date: Monday, February 19, 2018 5:56:29 PM
Attachments: [Business Comments to UTC.xlsx](#)

The enclosed spreadsheet, dated February 19, 2018 titled [Business Comments to UTC](#) contains a list of businesses who are submitting this comment to the WUTC regarding the 2017 PSE IRP:

Comment on PSE's 2017 Integrated Resource Plan

Docket Numbers UE-160918 and UG-160919

To Washington Utilities and Transportation Commissioners:

As the owner or manager of a business that relies on Puget Sound Energy for its power, I believe it time for PSE to move to 100% renewable, carbon-free energy. Shifting from coal and gas to wind, solar, and conservation will take effort and planning. Therefore, we encourage PSE and state agencies to work together to commit to a feasible plan that gets to zero carbon emission electricity generation within a decade.

A sustainable future lies with renewable power. The health and economy of our region will benefit in all ways from making this switch. We look forward to PSE's plans towards this better future.

Please address any questions to the undersigned.

Respectfully submitted by,

Kevin Jones
