**Re: Docket No. UE-132043
Updated Conservation Program Details**

Dear Mr. King:

Enclosed are an original and three copies of Puget Sound Energy, Inc.'s ("PSE") revisions of its 2015 Exhibit 3: Program Details, and Exhibit 4: Energy Efficiency List of Measures, Incentives and Eligibility, originally filed as a part of PSE's 2015 Annual Conservation Plan (ACP) in Docket No. UE-132043 on November 26, 2014. The Exhibit 4 revision replaces the updated Exhibit 4 filed with the Commission on June 25, 2015.

A modification to PSE's Resource Conservation Management (RCM) program, discussed on page 58 of Exhibit 3 and page 44 of Exhibit 4, made these updates necessary. The RCM program is adjusting its minimum participation qualifications, in readiness for retiring the Strategic Conservation Management (SRM) program at the end of 2015. By retiring the SRM program and reducing the minimum RCM program participation qualifications, PSE makes it easier for its customers to participate, and removes the need for customers to keep track of different programs. This revision has no effect on PSE's Conservation Schedule 253: Resource Conservation Management.

The revisions are consistent with Condition (5) in Appendix A of Order 01 in Docket No. UE-132043 which indicates that Exhibit revisions must be filed as updates to the ACP with the

Commission. Similarly, Condition (7)(a) of the same Order indicates that program modifications must be filed with the Commission as revisions to tariffs or as revisions to PSE's ACP, as appropriate. The enclosed Exhibit 3, "Version: Ninth" replaces "Version: Eighth", and Exhibit 4 which reflects "Version: Sixteenth" replaces "Version: Fifteenth" with revisions in the Exhibit footers throughout the documents reflecting the updated version numbers and publication dates.

PSE provided copies of these Exhibits, including draft and final versions, reflecting revisions, retirements, and additions to the Conservation Resource Advisory Group (CRAG) on August 3, 2015, consistent with WAC 480-109-110(3).
