RE: *Washington Utilities and Transportation Commission v. Cascade Natural Gas Corporation*,
Dockets UG-240008

TO ALL PARTIES:

February 24, 2025, the Washington Utilities and Transportation Commission (Commission) entered Order 05 in the above-referenced docket to resolve the general rate case filed by Cascade Natural Gas Corporation (Cascade or Company). Order 05 authorized Cascade to make a compliance filing to effectuate its terms.

On February 25, 2025, Cascade filed revised tariff sheets for natural gas Tariff WN U-3.¹ This filing contained tariff sheets for both Rate Year 1 and Rate Year 2 of the multiyear rate plan authorized by Order 05. The Company provided supporting documentation, and the tariff sheets updated Cascade's rates for the revenue requirements authorized by the Commission for each of the rate years. Commission Staff (Staff) noted that Cascade's compliance filing reflects a revenue requirement for its natural gas operations of \$29.8 million for its Rate Year 1 (effective March 2025) and \$10.8 million for Rate Year 2 (effective March 2026). This reflects the revenue requirements approved by the Commission.

On March 4, 2025, Staff filed a letter in this docket indicating that they reviewed the Company's revised tariff sheets and finds that the revised tariff sheets contain sufficient detail to comply with the requirements of Order 05 and recommends that the tariff revisions be allowed to become effective on March 5, 2025.

¹ On February 28, 2025, Cascade filed replacement tariff sheets for gas Tariff WN U-3, correcting an error in the effective date listed on the sheets. No other changes were made to the filing.

The Commission agrees with Staff's position that Cascade's February 25, 2025, compliance filing complies with Order 05 as it relates to filing revised tariff sheets. Further, the Commission agrees with Staff's recommendation that the tariff revisions should become effective on March 5, 2025.

JEFF KILLIP
