NETWORK ACCESS SERVICES¹

A. General

Network Access Service is provided through facilities owned and maintained according to the standards of the Company. The territory served is shown on maps filed with the Commission by the Company. This territory is divided into exchanges.

The application of business rates is determined by the actual or obvious use made of the service by the customer. Where only one Network Access line is provided at a location which is both business and residence, the business rate will apply.

The Network Access Line rates do not include a telephone.

Customers must select either Basic Calling Service or Premium Calling Service with the exception of selected exchanges where Optional Local Calling Plans (OLCP) are also available.

The Optional Local Calling Plans offered are Premium Plus Flat or Premium Plus Measured and may be selected in lieu of Basic Calling or Premium Calling Service plans. The applicable OLCP charges are a monthly recurring charge (same rate as Premium Calling Service) and a Premium Plus Service Adder (flat or measured). If Premium Plus Measured Service is selected, the associated Measured Usage Rates are applicable.
