**To:** [Public Involvement \(UTC\)](#)  
**Subject:** Thank you for protecting WA's Clean Energy Future  
**Date:** Wednesday, December 4, 2019 9:01:10 PM

---

Dear Washington UTC,

Our young adult children are scared of the future, scared they may not be able to inhale fresh air. You are tampering with our children's future. Please think twice about what your actions mean for the environment. Don't allow new fossil fuel infrastructure!

This is a comment for Docket # UE 190698.

As a Washington State ratepayer, I am strongly in support of effective public accountability and engagement for investor-owned utilities. I am excited for Washington's Clean Energy Transformation Act (CETA) to take effect, and appreciate your role in making sure that the implementation of this law delivers on its intended vision of a state powered by 100% clean energy.

With that in mind, I would like to make a comment on the importance of public participation in energy planning. Integrated Resource Plans have been a powerful tool for public input here in Washington State, and it has allowed customers to advocate for clean, transparent, and equitable energy decisions. These planning sessions are one of the few oversight and watchdog opportunities we get. Please keep the requirement that they happen every two years rather than every four, as proposed.

As a ratepayer and concerned resident, I thank you for representing my interests and making sure utilities are accountable to the public.

Sincerely,

Susan Montacute
