Save Avista

Thirty years ago I bought some Wn. Water Power Stock to help
Supplement my income when I retired .

I and probable many many others did the same . I am very
happy with my dividends I receive.

If the board wants to sell they can sell their stock and go.

Why sell a U.S. utility to Canada? They fired their board
for pay raises to themselves and raising rates .

WHY JOIN THAT

Thanks for the opportunity to voice my opinion.

Joseph M Martella
