Subject: RE: Gasco: Groundwater Quality Database through the 2023 Annual Event

John,

Thank you for keeping me in the loop. The 30-day extension is approved.

Enjoy your weekend.

Wes

Subject: Gasco: Groundwater Quality Database through the 2023 Annual Event

Hello Wes, Happy Holidays!

We routinely submit the groundwater quality database to DEQ within 120 days of the semiannual and annual groundwater monitoring events. We collected the last sample of the annual groundwater monitoring event on September 27, 2023 so the groundwater quality database would be due to DEQ on January 27, 2024. As you know, in recent years, laboratory turnaround and external data validation have been taking longer than in the past. We just received the laboratory results but validation is still 8 weeks out. NW Natural is therefore requesting a 30-day extension to February 27, 2024. Please let us know if you have any questions or would like any additional information.
