To whom it may concern,

I am adamantly opposed to your selling Avista to Canada's Hydro One! How can you turn over our own people and their welfare and interests to an entity who will obviously place their own interests first? Higher bills, restrictions, and who knows what other hardships! Maybe even a future sellout to a hostile power! This is unthinkable and unacceptable. I know of people in Canada who have nightmare stories of Hydro One. This is dangerous and will hurt many people if it goes through!

God bless America!
