An "Imbalance" is the difference between the volume of Gas that is subject to a confirmed nomination by Customer and the volume of Gas actually delivered to Customer under this Agreement. A positive Imbalance exists when the volume of Gas subject to confirmed nominations under the Customer's account is greater than the volume of Gas delivered to Customer. A negative Imbalance exists when the volume of Gas subject to confirmed nominations under the Customer's account is less than the volume of Gas delivered to Customer. Company will bill the customer an imbalance penalty if the customer has not completely satisfied such imbalance condition. These non-entitlement penalties are \$10.00 per MMBtu on the imbalance over-the-allowed tolerance on a monthly basis.

SCHEDULE 663
DISTRIBUTION SYSTEM TRANSPORTATION SERVICE

IMBALANCES: (continued)

Penalty charges incurred by Company as a result of a nomination imbalance or an unauthorized Over/Under Run will be passed on directly to those customer(s) whose Over/Under Runs contribute to the imposition of the penalty. Such penalty charges shall be allocated among such customers, including Company's system supply customers, in proportion to the nomination imbalance or unauthorized Over/Under Run associated with each customer or group of customers.

PRIORITY OF NOMINATED GAS:

Company shall designate the daily volume of gas delivered to Customer under this schedule in the following sequence as applicable, unless other sequencing has been agreed to in writing by Company:

(T)

- 1) The volume of system supplies which are scheduled to be made a portion of Customer's gas supply nomination, if any.
- 2) If Customer is providing a portion of its gas supply requirement with Customer-owned gas supplies, the volume of banked Customer-owned gas supplies, if any, shall be delivered prior to any other non-system supply.
- 3) The volume of spot market gas supply scheduled to be delivered, if any.

AUTOMATIC ASSIGNMENT OF GAS SUPPLY DURING A CURTAILMENT:

In the event of a curtailment, the Company may automatically take assignment of Customer-owned gas supplies in order to protect the service to higher priority customers as defined in Rule 17, Order of Priority for Gas Service. If the Company takes assignment of the Customer-owned gas, the Company will compensate Customer with a credit equal to the Gas Daily-midpoint price at the source of the supply for all volumes assigned plus a credit of \$0.60 per therm on all but the first 5 percent of the customer's daily entitlement under this Schedule.

UNAUTHORIZED USE OF GAS DURING ENTITLEMENT PERIODS:

The Company may declare an Entitlement on any day the Company, in its sole discretion, reasonably determines a critical operational condition warrants the need. If during an Entitlement, the total physical quantity of gas taken by customers served under this rate schedule exceeds or is less than the total quantity of gas which the customer is entitled to take on such day, as defined below, then all gas taken in excess of such entitlement or not taken within said entitlement shall constitute unauthorized overrun or underrun volume. Each general system or customer-specific declared overrun entitlement period shall be specified as either an overrun or an underrun entitlement for customers such that only one penalty condition may exist at one time, whereas:

**SCHEDULE 663
DISTRIBUTION SYSTEM TRANSPORTATION SERVICE**

UNAUTHORIZED USE OF GAS DURING ENTITLEMENT PERIODS: (continued)

- **Underrun Entitlement** – A period of time during which Customer’s total physical quantity of natural gas taken must be equal to or greater than the total quantity of Customer’s confirmed nomination. (C)
- **Overrun Entitlement** – A period of time during which Customer’s total physical quantity of natural gas taken cannot exceed the total quantity of Customer’s confirmed nomination. (C)

Customers served under this schedule shall pay Company for all unauthorized overrun or underrun quantities that exceed the percentage specified by the Company in its declared entitlement. For a general system or customer-specific declared entitlement period, such percentage will be: (i) in Company’s sole discretion 3 percent, or, in the case of a declared overrun entitlement period announced on the day it is to be in effect, 5 percent for that day (Stage I), 8 percent (Stage II) or 13 percent (Stage III) of Customer’s entitlement as set forth above. (T)

Customer’s gas usage that exceeds the amount Company authorizes during an entitlement period shall be considered an unauthorized overrun volume. The overrun charge that will be applied during any overrun entitlement period will equal the greater of \$1.00 per therm or 150% of the highest midpoint price for the day at NW Wyoming Pool, NW south of Green River, Stanfield Oregon, NW Canadian Border (Sumas), or Kern River Opal supply pricing points (as published in Gas Daily), converted from dollars per dekatherms to dollars per therm by dividing by ten. The overrun charge will be in addition to the incremental costs of any supplemental gas supplies the Company may have had to purchase to cover such unauthorized use, in addition to the regular charges incurred in the Rate section of this Schedule and any other charges incurred per the terms and conditions established in this Schedule. The payment of an overrun penalty shall not under any circumstances be considered as giving the customer the right to take unauthorized overrun gas or to exclude any other remedies which may be available to the Company to prevent such overrun. The charge that will apply during any underrun entitlement period will be \$1.00 per therm for any underrun imbalances. (T)

NOTICE OF ENTITLEMENT:

Company shall give as much advance notice as possible for each entitlement. Company’s notices of entitlement periods as well as restoration notices shall be given by telephonic communications, electronic communication, or personal contact by Company personnel to Customer’s Agent. A notice of an entitlement period will include the parameters for gas consumption during said entitlement period. (T)
