BR 33

Explain whether the NOMC shared fixed costs were included as a direct cost or included in the common costs established in UT-960369, et al. and identify any exhibits that illustrate whether those costs were backed out of the common costs established in that docket, and attach any work papers.

Supplemental Response:

As noted in Verizon's response to Bench Request #33 dated May 1, 2001, Verizon is hereby submitting revised Attachment 33A that contains revised deaveraged rates for DS1 loops.
