**Re: Puget Sound Energy 2024 General Rate Case
Dockets UE-240004 / UG-240005**

Dear Director and Secretary Killip:

After Puget Sound Energy's ("PSE") initial filing in the above-captioned dockets, Commission Staff requested that PSE resubmit certain items from PSE's filing. In consultation with Staff, PSE submits the items as outlined below.

Today, PSE is filing replacement versions of the documents identified below that address isolated concerns regarding text searchability, internet link errors, or Excel formula errors. For text searchability concerns, these were primarily figures or tables that were not searchable within otherwise searchable documents; or in some cases were documents of third parties designated as exhibits, where the documents were not specifically created for this case and were not searchable (e.g., contracts). Note that PSE used Optical Character Recognition ("OCR") technology to identify text but in some instances, the OCR technology could not identify text due to the quality or nature of the text. However, the vast majority of the documents PSE filed originally were searchable, and to the extent any were not searchable, nearly all have been made searchable through the OCR process and are being refiled.

PSE also anticipates filing revised testimony containing errata or minor text revisions and some revised and supplemental exhibits on March 4, 2024, as identified below.

Note that some items identified by Staff were provided in PSE's work papers, which were distributed to case parties on February 23, 2024. PSE identifies those items in a table at the end

Below are the items that are addressed with work papers:

Items Resolved With Work Papers

Witness	Exhibit	Issue	Description
Aaron A. August	Exh. AAA-1T	Page 19, footnote 17, directs to PDF that does not have searchable capabilities.	Text searchable PDF provided in supplemental work paper.
Ann E. Bulkley	Exh. AEB-1T	References related to: page 52 lines 5-6; page 17, footnote 9; page 21, footnote 14; page 26, footnote 20; page 47, footnote 40; page 79, footnote 77.	Existing work papers contain additional information and support.
Colin P. Crowley	Exh. CPC-9HC	Footnotes 4 and 6, links do not work.	PSE is providing supplemental work paper for the current links to not disrupt original source document.
Mark Newton Lowry	Exh. MNL-1T	Exhibits or working links for various sources including pg. 4 (U.S. Bureau of Economic Analysis Table 1.5.4. Price Indexes for Gross Domestic Product, Expanded Detail), pg. 5 CBO 10-year Economic Projections and U.S. Bureau of Economic Analysis, Table 1.5.4.	Existing work papers provide links to data source.
	Exh. MNL-3	Pg. 16-49, for all tables (1-12) there are no working links for the sources of the data. Some tables have working links to the definitions of terms, but none have a link to the data itself (i.e., the BLS National Compensation Survey Data).	Existing work papers provide links to data source.
