9	In the Matter of the Petition of Qwest Corporation No. Docket UT-030614			
10	for Competitive Classification of Basic Business Exchange Telecommunications QWEST CORPORATION'S			
11	Services RESPONSE ON ISSUES RAISED IN STAFF'S MOTION REQUESTING			
12	PRODUCTION OF INFORMATION			
13				
14	Qwest Corporation ("Qwest") hereby files this Response to the Commission's June 18, 2003			
15	Request for Responses on Issues Raised in Staff's Motion Requesting Production of Information. The			
16	questions posed in the Request are detailed below with answers immediately following.			
17 18	• For CLECs who provide facilities-based service, would adequate information be provided if responses were based on Qwest exchanges, or other parameters, rather than Qwest wire centers?			
19 20	Response: Qwest supports requesting the desired information at a wire center level. Qwest has			
20	provided its data supporting its Petition at the state, regional, exchange and wire			
21	center levels. Qwest believes that the additional data sought from the CLECs through			
22	Commission Staff's request for information would be most easily evaluated if it could			
24	be categorized in a manner similar to the Qwest data. If such data is not readily			
25	available at the wire center level, Qwest supports obtaining information at the most			
26	detailed level available.

2	• For CLEC's that provide services based on Qwest's facilities, would Qwest be the logical			
3	provider of	f the information Staff seeks regarding location of services by wire center?		
4	Response:	Yes. In addition to providing data supporting its Petition at the state, regional,		
5		exchange, and wire center levels, Qwest has also provided masked information that		
6		categorizes its supporting data by the various CLECs purchasing the wholesale		
7		services. Consequently, the data is already available as a part of Qwest's Petition.		
8 9	• Is there any objection to the inclusion of additional or revised requests for information as propose by Public Counsel and WeBTEC?			
10	Response:	Qwest has reviewed Staff's Response to Issues Raised in Answers to Staff's Motion		
11		and concurs with Staff's responses to the additions or revisions proposed by Public		
12		Counsel and WeBTEC.		
13	• If a future protective order is entered in this proceeding, should it reflect the highly confidential provisions contained in the protective order entered in Docket No. UT-000883. Second			
14 15		ntal - Protective Order, July 31, 2000? If not, why not? What further protective , if any, would be appropriate?		
16	Response:	Qwest supports the use of a protective order that would allow it access to CLEC		
17		information. The protective order in Docket No. UT-000883 contained a provision		
18		that prohibited all parties except Staff from seeing CLEC confidential information.		
19		This provision is unnecessary in this proceeding. Any party who agrees to be bound		
20		by the standard protective order should be allowed access to confidential information,		
21		with the expectation that such information will be treated and handled in accordance		
22		with the confidentiality protections. If any party feels that a "highly confidential"		
23		designation is necessary, that party should make a request for heightened protection.		
24		However, there should not be a provision that denies a party any opportunity to		
25		review material upon which recommendations will be made, and upon which the		
26		Commission may base a decision.

1 2	L liste of ATRT and MCP commendant there there are deal divisional time to mean and in liste			
2	of the possible need to request information from Qwest in circumstances where Qwest provides facilities upon which CLEC service is based, should the time frames for responses to Staff's			
	 motion be lengthened? What is a reasonable alternative deadline for production of information? Would Qwest be willing to lengthen its waiver of the statutory deadline for completion of the proceeding to accommodate the additional time needed? 			
_				
6	Response: Qwest does not believe there is a need for delay. Qwest has already provided much			
7	information in regard to the wholesale services being purchased by CLECs to			
8	compete with the services for which Qwest seeks competitive classification. If more			
9	information is required, Qwest will respond as soon as practicable.			
10	• Any other matters raised in the answers that the parties wish to address at this time.			
11	Response: Qwest has no additional matters to discuss at this time.
