DATA REQUEST NO. 21:

If the answers to either DR No. 18 or DR No. 19 or both are “no”, please state what metric WUTC Staff would use to evaluate pilot productivity with respect to TDNI or DNI.

RESPONSE:

No - If “pilot productivity” is understood as “efficiency,” A measure of efficiency requires a mutually agreed benchmark representing efficiency. Any calculation standing alone would not be quantifiable using solely the variables that were used to create the service time rate. Staff did not propose any pilot productivity (efficiency) measures with respect to TDNI or DNI.
