**BACKGROUND**

1 This matter comes before the Washington Utilities and Transportation Commission (Commission) for approval of a negotiated second amended agreement (Amended Agreement) under the Telecommunications Act of 1996 (Telecom Act). The Amended Agreement is between Adelphia Business Solutions Operations, Inc., (Adelphia), and Verizon Northwest Inc. (Verizon). On November 13, 2000, the parties filed a joint request that Adelphia receive all arrangements provided in an interconnection agreement previously approved by the Commission between Electric Lightwave, Inc., (ELI), and Verizon, f/ka/ GTE Northwest Incorporated (GTE), in Docket UT-980370. The Commission accepted this request on December 13, 2000, and on January 24, 2001, the Commission approved a first amended agreement. The Commission ordered that in the event the parties amended their agreement, the amended agreement would be deemed a new agreement under the Telecom Act and must be submitted to the Commission for approval. The parties filed a joint request for approval of a second amendment on July 12, 2001.

**MEMORANDUM**

2 The Amended Agreement between Adelphia and Verizon was brought before the Commission at its regularly scheduled open public meeting held on August 8, 2001, at its offices in Olympia, Washington. The Commission granted its approval of the Amended Agreement as negotiated and requested by the parties.

**FINDINGS OF FACT**

3 The Commission is an agency of the State of Washington vested by statute with the authority to regulate the rates, rules, regulations, practices, accounts, securities, and transfer of public service companies, including telecommunications companies.

4 Section 252(e)(1) of the Telecom Act requires parties to a negotiated agreement to submit the agreement to the Commission for approval. Section 252(e)(2)(A) states that the Commission may only reject an agreement (or any portion thereof) adopted by negotiation if it finds that:

- (i) the agreement (or any portion thereof) discriminates against a telecommunications carrier not a party to the agreement; or
- (ii) the implementation of such agreement or portion is not consistent with the public interest, convenience, and necessity.

5 Verizon is engaged in the business of furnishing telecommunications services, including, but not limited to, basic local exchange service within the state of Washington.

6 Adelphia is authorized to provide telecommunications services to the public in the state of Washington.

7 On November 13, 2000, the parties filed a joint request that Adelphia receive all arrangements provided in an interconnection agreement previously approved by the Commission between ELI and GTE in Docket UT-980370. The Commission accepted this request on December 13, 2000, and on January 24, 2001, the Commission approved a first amended agreement. The Commission ordered that in the event the parties amended their agreement, the amended agreement would be deemed a new agreement under the Telecom Act and must be submitted to the Commission for approval.

8 On July 12, 2001, the parties filed with the Commission a joint request for approval of a second amendment to the previously approved interconnection agreement, pursuant to the Telecom Act.

9 Adelphia and Verizon voluntarily negotiated the entire amendment.

10 The Amended Agreement does not discriminate against any other telecommunications carrier.

11 The Amended Agreement will facilitate local exchange competition in the state of Washington by enabling Adelphia to expand its presence in the local exchange market and increase customer choices for local exchange services.
