

**IMPORTANT NOTICE
FROM ASOTIN TELEPHONE
COMPANY D/B/A TDS TELECOM**

On April 7, 2005, TDS Telecom filed a tariff with the Washington Utilities and Transportation Commission (WUTC) to discontinue offering Foreign Exchange (FX) service to new customers. This filing is subject to approval by the WUTC.

If approved by the WUTC, TDS Telecom will no longer be offering FX service to new customers after May 7, 2005. Customers currently subscribing to the service will be able to continue their service at the existing rates until they decide to discontinue the service.

FX service was implemented at a time when local calling areas were limited and plant facilities weren't available in some areas. This is no longer the case, thus eliminating the need to continue offering the service.

If you have any questions, concerns, or need additional information about the company's proposal, please contact your local business office at the following address and/or toll-free number:

126 2nd Street
P.O. Box 399
Asotin, WA 99402-0399
1-888-837-8020

continues...

If you'd like more information on process questions or to be notified of the scheduled open meeting at which the proposal will be considered by the WUTC, please contact:
