

Memorandum

July 2, 2007

To: TR-061559- File

From: Kathy Hunter, Transportation Safety Compliance Manager
Pam Smith, Transportation Specialist

Subject: TR-061559 –Operation Lifesaver GCPF Project

On November 8, 2006, the Washington Utilities and Transportation Commission (commission) awarded a GCPF grant of \$20,000 to Operation Lifesaver to translate and publish current English-only rail safety presentation materials to Spanish. In addition, it proposed to produce a video public service announcement in Spanish and broadcast it on television and radio.

On July 3, 2007, Operation Lifesaver submitted a request for reimbursement for work pursuant to commission order. Commission staff reviewed the materials and the rail safety materials were completed. Operation Lifesaver did not produce the public service announcement over the radio and the project final cost was \$12,137.41.
