

Memorandum

July 2, 2007

To: TR-061560- File

From: Kathy Hunter, Transportation Safety Compliance Manager
Pam Smith Transportation Specialist

Subject: TR-061560 Operation Lifesaver GCPF Project

On November 8, 2006, the Washington Utilities and Transportation Commission (commission) awarded a GCPF grant of \$20,000 to Operation Lifesaver to convert the National Rail Safety for Emergency Responders (RSER) training program from a live presentation to web-based training.

On July 3, 2007, Operation Lifesaver submitted a request for reimbursement for work pursuant to commission order. Commission staff reviewed the hard copies of the web-based training and found the project was completed according to the specifications outlined in the order approving the grant.
